

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

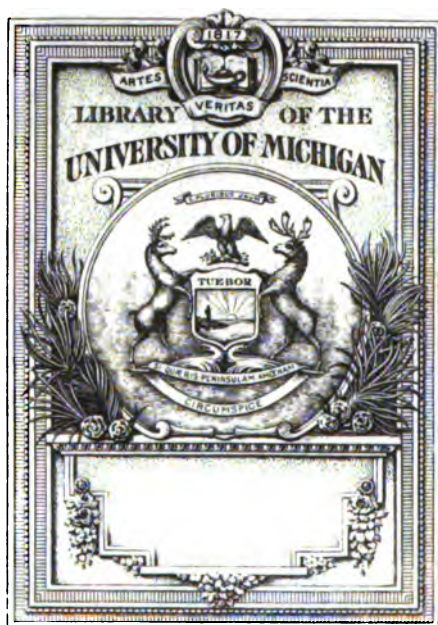

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CITY OF PROVIDENCE.

RESOLUTION OF THE CITY COUNCIL NO. 16.

(Approved January 5, 1915.)

RESOLVED, That the Joint Standing Committee on Printing be and said committee is hereby authorized and directed to wait upon His Honor Mayor Joseph H. Gainer, and request him to furnish for publication a copy of the address delivered by him to the City Council January 4, 1915, and to cause the same to be published in such manner as they shall deem expedient. Also

RESOLVED, That the above named committee be and they are hereby directed to cause the standing rules of order of the Board of Aldermen and the Common Council, a list of the city officers, and such portion of the record of the organization of the city government as they shall deem expedient, to be printed for the use of the City Council, under the general title of the "City Manual."

INAUGURAL ADDRESS
OF
JOSEPH H. GAINER
MAYOR
DELIVERED JANUARY 4, 1915

TO THE HONORABLE THE CITY COUNCIL OF THE CITY
OF PROVIDENCE.

GENTLEMEN:

We meet to-day to organize the City Government for the years 1915-1916. I know I voice the sentiment of every member present when I return thanks to the people of the city for the confidence they have manifested in us by electing us to represent them and to carry on the work of government for the next two years. I cannot allow this opportunity to pass without expressing my personal gratitude to the voters of Providence for the splendid endorsement given me last November. I desire, also, to thank at this time

the members of the City Government and the heads of departments during the past two years for the courtesy extended to me and the co-operation given me. I have used the veto only four times in two years and in each case I was sustained by the City Council. I believe the harmony which has existed between the legislative and the executive branches of the city government has been of benefit to the city. When I speak of harmony I do not mean the suppression of individual opinion, but rather the suppression of friction which is created merely to see the sparks fly.

The past term, which closes to-day, was distinguished for the enormous amount of work and the many accomplishments which it has to its credit. No two years in the history of Providence have seen so many improvements. New cross-town streets have been laid out, existing streets widened, and Arnold Block removed; several new schools have been erected or planned for erection in the immediate future; two public baths, three field houses, two comfort stations, a hospital addition at Dexter Asylum, and a new sea wall at Field's Point have been added to the city's possessions; the grade crossings at Olneyville have been eliminated, a mall installed in Exchange Place, and extensive alterations partially completed at City Hall; a new street lighting system has taken the place of the old open-arc lighting system; land for several new playgrounds has been

purchased, a new power franchise arranged, a telephone franchise practically completed, and several new departments of the city government created. Much of this work was contracted for in a prior administration.

The net debt of the city has increased during this period, it is true, but this increase is amply compensated for by the permanent improvements provided. Furthermore, our debt is small, compared with other cities of our size. We must bear in mind, however, the fact that owing to the large increase in the funded and floating debt which these expenditures have made necessary, our interest charges for some time will be larger than heretofore. We must also remember that as the years go on the expenses of the city will increase proportionately. Any large annual increase of expenditure for the future must be scrutinized with great care if we hope to maintain our tax rate at its present figure. An increase of our yearly expenditure of any appreciable amount must necessarily mean an increased tax rate. Several attempts have been made during the past few years to increase the present tax rate. I have been one of those who have fought these attempts. We have now arrived at a point in our affairs, however, when it is imperative that we make a decision. We must decide on a course of the strictest economy for the present term or have an increased tax rate.

I have gone over with minuteness the work of the past term in this message because I desire the members of this body to realize what has been done in each department, so that they may see for themselves just what the position of each department is as it enters on the new term. I want the City Council to look at the various departments in connection with each other so that it will not be tempted to develop one department at a too great sacrifice of the others.

I trust that every member of the City Government will feel at liberty to consult with me concerning the city's affairs whenever he desires to do so. I shall always be glad to receive advice or to give it if I am able to do so.

CHARTER REVISION.

Two years ago I called attention to the need of a new charter for our city. Nothing has been yet done to relieve conditions in this respect. The City of Providence is greatly handicapped by its antiquated charter totally unadapted to modern government. No one feels this handicap more keenly than the Executive Department.

My conception of the duties of Mayor may differ from that held by others in the past, but it is in line with modern municipal ideas. I believe the Mayor should be in close touch with the people who elect him, not with any particular class, but with the whole

people. He should endeavor to know their wants and when those wants are reasonable and their fulfillment requires legislative action, he should urge such action upon the legislative branch of government; when they do not require legislative action he should be in a position to carry them out himself, through the heads of departments. In other words, the Mayor should be the head of the City Government in reality as well as in name. No tyranny or abuse of power need be feared, since the Mayor is directly responsible for his actions to the people of the city every two years. During the past term I have obtained, through courtesy, from the heads of departments powers and privileges which should be given the Mayor by charter. I have no fault to find with the men in charge of the various departments of city government. They have been uniformly courteous and respectful to me. But the charter restrictions have necessitated an unnecessary expenditure of time and labor which I might have given to other phases of municipal activity. I trust the City Council will appoint a Special Committee to consider this subject as early in the year as possible.

FINANCE.

The valuation of the City of Providence made by the Board of Tax Assessors in June, 1914, is as follows:

Real Estate	\$212,030,840.00
Tangible Personal Property	55,169,460.00
Intangible Personal Property	77,004,120.00
<hr/>	
Total	\$344,204,420.00

The amount of the tax is \$4,716,821.43.

The appropriation for the support of the city government for the fiscal year 1914-1915 made by the city in September was \$5,802,727.98.

The extraordinary or non-revenue expenditures during the past two years have been much greater than in previous years, due to the unusually large number of public improvements, notably street layouts, the latter having been ordered by the city council during the fiscal year 1911-1912. The expenditures on account of these improvements were during the two years \$3,927,222.03. An analysis of this total may be interesting.

1912-1913.

Dexter Asylum, new building	\$794 30
Highways, Special	769,133 13

This total includes the following amounts paid as awards for damages on the layout of streets, viz.:

Elmwood avenue	\$34,143 31
Franklin street	150,050 00
Maryland avenue	11,250 00

Plainfield street	40,725 00	
Smith street	87,070 80	
Waterman St. extension	173,471 67	
	<hr/>	
	\$496,710 78	
Harbor Improvement	258,797 18	
Fire Department Wires placed underground	23,947 41	
Olneyville Grade Crossings	14,961 08	
Public Bath Houses	2,957 00	
Public Comfort Stations	23,798 92	
Public Parks and Playgrounds	39,903 54	
Rebuilding portion of Exchange Place ..	6,287 91	
School Houses and Lots	112,866 09	
Sewer Construction	244,549 78	
	<hr/>	\$1,497,996 34

1913-1914.

City Hall Alterations	\$13,408 39
Dexter Asylum, new buildings and alterations	56,357 81
Fire Station, Pond street	1,759 22
Harbor Improvement	240,885 70
Highways, Special	1,704,001 92

This total includes the following
amounts paid as awards for damages
on the layout of streets, viz.:

Elmwood avenue	\$22,690 26
Empire street	718,592 63
Fountain street	345,527 28

Franklin street	17,125 00	
Maryland avenue	7,500 00	
North Main street	58,395 00	
Plainfield street	13,223 00	
Waterman St. extension	15,500 00	
	<hr/>	
	\$1,198,553 17	
Olneyville Grade Crossings	31,293 11	
Police Station, Second Ward	2,221 33

Public Comfort Stations	25,215 42	
Public Playgrounds	67,209 25	
School Houses and Lots	128,318 51	
Sewer Construction	125,483 15	
		<hr/>
		\$2,429,225 69

Necessarily this large expenditure has resulted in an increase of the city debt as will appear from the following comparison:

Gross Debt October 1, 1912.	Gross Debt October 1, 1914.
\$19,546,000.00	\$21,914,014.34

That the increase of the gross debt is not equal to the expenditures from borrowed money is due to the operations of the sinking fund whereby \$1,442,00.00 of the city bonds were cancelled and retired, and also the payment from appropriations of more than \$125,000.00 of the city notes.

A comparison of the city debt and sinking funds October 1, 1912, with October 1, 1914, shows:

	October 1, 1914.	October 1, 1912.
Funded Debt	\$18,816,000 00	\$18,883,000 00
Floating Debt	3,098,014 34	663,000 00
<hr/>		
Total	21,914,014 34	19,546,000 00
Sinking Funds	8,390,936 63	8,080,765 00
<hr/>		
	\$13,523,077 71	\$11,465,235 00

We have recently made arrangements to bond \$2,000.00 of our
floating debt.

The net debt classified shows as follows:

Water	\$1,774,632 33	\$2,438,111 64
Sewer	3,392,808 86	3,640,694 96
School	1,819,332 25	1,745,212 61
Highways	3,153,148 22	1,109,483 18
Parks and Playgrounds	1,056,895 02	1,030,830 22
All others	2,326,261 03	1,500,902 39
<hr/>		
	\$13,523,077 71	\$11,465,235 00

Transactions relative to the sinking funds during
the last two years are shown by the following state-
ment:

Amount of fund October 1, 1912 \$8,080,765 00

Additions:

Annual Appropriations by City	\$572,340 00
Interest received	592,160 20
Discount on bonds purchased	13,157 80

Premium on bonds sold	562 50	
Sale of real estate	13,634 42	
Surplus from water rents	572,555 51	
		<hr/> 1,764,410 43

		<hr/> 1,454,238 80
		<hr/>
Amount of fund October 1, 1914	\$8,390,936 63	

WATER SUPPLY.

Perhaps the most important project which the city has had under consideration during the past administration is the development of the new water supply. No argument is necessary to convince the taxpayers of the importance to the City of Providence of an adequate supply of pure water. It is perhaps not generally realized, however, that our present supply will not be adequate for our needs a few years hence. Nevertheless, such is the fact.

A realization of this fact caused the City Government, in the beginning of the year 1913, to take up the

study of an additional supply. At that time a committee of the City Council was appointed which began an investigation to determine where the new water supply could be obtained. The committee employed Mr. Samuel M. Gray to assist it in its work. Under Mr. Gray's direction our present source of supply, the Pawtuxet River, was first examined. This water flows in an open stream through the Pawtuxet Valley to Pettaconsett. At that point it is taken by low lift pumps from the Pawtuxet River and filtered through slow sand filter beds. It is then pumped into the Sockanosset Reservoir. From this point it is carried to Hope Reservoir, and thence to the reservoir at Fruit Hill. The total water consumption for all uses averages about 18,000,000 gallons per day, and has risen as high as 25,000,000 gallons per day. About 90% of the service is metered.

The water of the Pawtuxet River before it is filtered is highly polluted. Mills and mill villages line its banks. Many of these mills have reservoirs, which detain the water at times in large quantity. Investigation showed that at these times the city is practically dependent upon the water stored in the Sockanosset, Fruit Hill, and Hope Reservoirs. It was evident to the committee that immediate action was necessary if a serious situation was to be averted.

An investigation was immediately begun of the available waters of the state. It was soon apparent

that the only possible source to which we could look for our supply was the Pawtuxet River. Two plans were suggested for meeting our needs from this source. The first plan had in contemplation the building of a number of small reservoirs and the retaining of our pumping and filtration system. The second plan provided for a large reservoir at the source of the stream from which the water could be brought to Providence through a conduit by gravity. Though the second plan involved a large initial expense, the figures being estimated between \$9,000,000 and \$10,000,000, it seemed to the committee to be more favorable and in the long run more economical. It was conservatively estimated that in fifty years time the population of Providence, and the territory now supplied by the Providence Water Works, will number over 800,000 people. This without taking into account the new territory which in all probability we will be called upon to supply within that period. It was decided that we ought to provide a supply which would be adequate for a period of 50 years.

The Committee was advised that if the city began operations in 1915 the water for the new source could not be brought into Providence a moment before it was absolutely necessary to meet the demands upon our water department. Mr. Frederic P. Stearns, formerly supervising engineer of the Wachusset Water System, chief engineer of the State Board of Health

of Massachusetts, consulting engineer on the Panama Canal and consulting engineer on the new water supply of the City of New York, was called by the Committee to advise with Mr. Gray. Mr. Stearns confirmed the findings of Mr. Gray.

At the last session of the legislature a bill was presented by the city asking for authority to carry out its plans. This authority was not granted. Since that time the committee has called into consultation several of the best experts in the country in this line of work. These experts were asked to study the plan and to give their opinion without any reference to the former findings of the committee or of its engineers, Messrs. Gray and Stearns. In other words, if the Committee had not obtained the best possible plan for the solution of this problem, they were as anxious as anyone else to ascertain that fact. These experts, after months of careful study of this question, have confirmed the findings of Messrs. Gray and Stearns.

It is unnecessary for me to point out the urgency of this matter. The city has spent a great deal of money in getting the best expert advice available. We feel that the plan we have worked out is the only feasible plan for the solution of the problem, and we feel that the Rhode Island legislature ought to grant us the authority necessary to carry it out.

HEALTH DEPARTMENT.

While the Health Department of Providence has not adopted the more sensational methods which are being advocated in many of our sister cities, it has developed along efficient lines. The death rate in Providence for 1913 was 15.12, the lowest ever recorded; and while it was slightly higher in 1914, it was with the exception of 1913 the lowest on record. The typhoid death rate in 1913 was 9.9, with one exception the lowest on record. Although in 1914 a few more deaths have occurred from this disease, the rate will probably figure the third lowest during the 60 years of registration.

Mosquito control has during two summers been carried on by this department under a special appropriation, and has greatly conduced to the comfort of many of our citizens.

February 10, 1914, the work of milk inspection was transferred to the Health Department, Dr. Chapin being made ex-officio Inspector of Milk. Dr. Chapin immediately appointed Professor Frederic P. Gorham of Brown University, Deputy Milk Inspector. In July, 1913, prior to this change, while a special committee of the City Council was investigating charges against certain officers of the old milk department, the health department was placed in temporary control of milk inspection. The samples of milk then taken showed the supply to be very poor, both chem-

ically and bacteriologically. In the absence of a bacterial standard attention was, and has since been, directed chiefly to the chemical composition of the milk. Dealers were prosecuted and licenses refused. Some of the most persistent offenders have gone out of business, and some have reformed.

Of the 171 wagon dealers, twenty-nine have been prosecuted. Of these, ten have gone out of business. The licenses of two others were refused; and three more, who were warned that a second offence would lead to prosecution, have also gone out of business. The Federal Government is co-operating with the department in attempting to prevent the shipment of poor milk from adjoining states.

Nearly a third of the milk supply of Providence is now pasteurized. I am informed by Dr. Chapin that the pasteurizing process is often poorly done, and the department finds it necessary to give a good deal of attention to its supervision.

The quality of the milk sold in our city has appreciably improved, although ideal conditions do not yet prevail. The creation of a bacterial standard, and a greater interest by the consumer would be of material assistance to the department in its effort to give Providence pure milk.

SCHOOLS.

In dealing with this subject two years ago I made certain recommendations. Some of these recommendations were adopted, notably the increase in teachers' salaries. I regret exceedingly that it was not found possible during the past term to introduce manual and industrial training into our schools. I believe this must be done to bring our school system to the standard of other progressive cities. Six centers would be sufficient for a beginning. With this provision we could take care of the eighth grade children in our grammar schools. As I pointed out last year, a very large percentage of our grammar school children finish their school life in the grammar school. I feel that it would be a wonderful help for these children to have even a year of industrial training.

We need greater accommodations for our mental defectives. At present we have eleven classes of mentally defective children, accommodating 200 pupils. One hundred additional children already pronounced defectives cannot be accommodated under present conditions. Four hundred and fifty others are awaiting examination. It is expected that four-fifths of this number will be pronounced defectives by the physician. If this expectation proves a reality we will have 460 children of this class for whom we have made no provision.

We have now in our schools on part time 33 classes numbering about 1,325 children. The City Council is providing new school buildings, which it is hoped will make this part-time plan unnecessary. The Courtland Street school, now in course of construction, will contain 29 rooms and an assembly hall, and will accommodate 1,200 pupils. The estimated cost of this building is \$300,000.00. The Council in November appropriated \$190,000.00 for an 18-room school building on Laurel Hill Avenue, in the Eighth Ward; and \$200,000.00 for the construction of a 19-room school building, with assembly hall, on the Mount Pleasant Avenue Site, in the Tenth Ward. Land has been purchased for a grammar school to be erected on Charles Street, near Branch Avenue, in the Third Ward. The City Property Committee of the City Council is at work on this project at the present time. Legislation has been granted the city for the hiring of a half a million dollars more for the purchase of land and the construction of a building for a new high school. Land has already been purchased on Session Street, in the Second Ward, for a new school building. I trust that a primary school for the Silver Lake District will be provided in the near future.

The appropriation for the fiscal year 1914-1915 was \$1,062,750.00. In addition to this amount it is estimated that at least \$85,000.00 will be added to the

school revenue from other sources. The number of pupils enrolled in the public schools at the beginning of the present school year was 33,270, divided as follows:

3,251 in the High Schools.

10,195 in the Grammar Schools.

16,930 in the Primary Schools.

2,528 in the Kindergarten Schools.

366 in the Special Schools.

The teaching force in all the schools numbers 930.

I recommended two years ago the creation of a School Commission to manage our schools. I reiterate that recommendation at the beginning of this term. I wish the members of the City Council would study this question. I feel that a smaller body, elected from the city at large or appointed by the Mayor, who is himself elected in this manner, would be of great benefit to our school system. I believe that a Commission so elected or appointed could get in closer touch with the City Council.

PUBLIC BATH HOUSES.

For the fiscal year 1913-1914 public baths were maintained in the public schools throughout the school year under the direction of the School Committee. These baths were in operation, under the direction of the Board of Recreation, during the summer months, together with the baths in the field houses.

The Park Commission operates a public bath near Washington Bridge during the summer season, and the Franklin Park bath house during the entire year. The report of the Superintendent of the latter shows that up to December, 1914 there was a total of 54,952 baths taken in this house.

During the past term the Joint Special Committee on Bath Houses built two new baths, one at Quaid Street and the other at Manton Avenue, at a cost of \$64,000.00. This committee is deserving of credit for its painstaking labor in this connection.

Both houses were opened to the public September 30, 1914, and have been in operation ever since. At each house there are 40 dressing rooms and 24 baths, divided equally for males and females. The total number of baths taken at Manton Avenue, up to December 12, 1914, was 9,379; while the number at Quaid Street for the same period totalled 21,194. The total cost of operation for the two houses during this period was \$2,253.93; the total weekly cost \$204.89; and the total cost per bath \$0.74. Four attendants are employed at each house, two males and two females. Both houses are under the direction and management of the Commissioner of Public Buildings. Persons attending these baths, bringing their own towel and soap, are allowed to bathe free, while those desiring the use of these articles furnished by the attendants, are charged for their use the nominal sum of five

cents. The towel rental for the 11 weeks of operation referred to above was \$323.68. The Commissioner of Public Buildings believes that this revenue should be credited to the source from which it comes. I believe his request is a reasonable one.

PUBLIC COMFORT STATIONS.

During the past two years the City of Providence has built two comfort stations, one at the junction of Weybosset and Mathewson Streets, and the other in the Exchange Place Mall. The former was open to the public July 14, 1913, and was the first public comfort station established in the city of Providence. This station was erected at a cost of \$23,793.22. It is open from 6 o'clock in the morning until midnight. There are four attendants, two male and two female.

The station in the mall was open to the public April 18, 1914. Prior to the first of October of this year the men's side of this station was open twenty-four hours of the day. Since that time, however, this longer schedule has been discontinued. There are four attendants at this station, also.

The cost of maintaining the Weybosset Street Station from April 8, 1914 to December 1, 1914, was \$2,893.32, while the receipts were \$803.43. The cost of running the Exchange Place Station during the same period was \$3,002.65, while the receipts were \$964.51. Both stations are under the direction of

the Commissioner of Public Buildings. They have proved a great convenience to the people of the city. I would strongly advocate the building of two more such stations, one in Olneyville Square and one in Randall Square.

STREET IMPROVEMENTS.

The City of Providence, under the franchise agreement with The Rhode Island Company, obligated itself to the improvement of various highways, the approximate estimated cost of which was \$2,000,000, the Railroad Company agreeing to contribute towards the cost of these improvements an amount equal to $4\frac{1}{2}\%$ of one-third the cost of all land damages involved. The purpose of this work was to improve traffic conditions and to give the street railway company an opportunity to run its cars more rapidly through the then congested sections. The city has completed this work to a great extent during the past term. Arnold Block has been removed, and Waterman Street continued to Canal Street. Franklin Street has been extended, making a new cross-town street in the center of the city. Elmwood Avenue, Plainfield Street, Smith Street, and Maryland Avenue have been widened. Awards were recently made for the layout and widening of North Main, Empire, and Fountain Streets, the land damages alone amounting to \$1,500,000.00. The tearing down of buildings on these streets has actually begun.

These highways, when completed, ought to greatly facilitate the handling of street railway and vehicular traffic in the down-town district.

In addition to this work of an extraordinary nature, a work which should have been done through a series of years instead of during the short period of two years, the city has built its usual proportion of highways in various parts of the city. The highway department has been studying the best manner of replacing the water-bound macadam street which has everywhere proved itself unable to withstand automobile traffic. Permanent pavements have been built with granite and wood block, asphalt, and bitulithic. In addition the city has laid, after extensive experiments, a large amount of bituminous macadam. As a result, there has been laid in various sections of the city about twenty miles of the best approved kinds of modern pavement. It will require a number of years to replace the streets now built with ordinary macadam by permanent pavement.

There has been appropriated for the ensuing year a much smaller amount of money than usual for the purpose of building streets that have been newly received. Of the \$40,000.00 appropriated for this purpose there is but \$10,000.00 left in the city treasury, while Mr. Slade estimates that there is approximately \$70,000.00 of work to be done.

I had occasion a few weeks ago to veto a resolution authorizing the paving of Broad and Messer Streets with bitulithic pavement, because the resolution as it was framed did not allow competition with asphalt. In my veto message I made the statement that the lowest price the city had ever obtained on bitulithic pavement had been \$2.30 a square yard, and that I had been promised by an asphalt concern a figure as low as \$2.15 per square yard if they were allowed to bid. In a recent competitive bidding on these streets the low bidder on asphalt brought his figure to \$2.00 per square yard and the bitulithic bidder to \$2.13.

CITY PLAN COMMISSION.

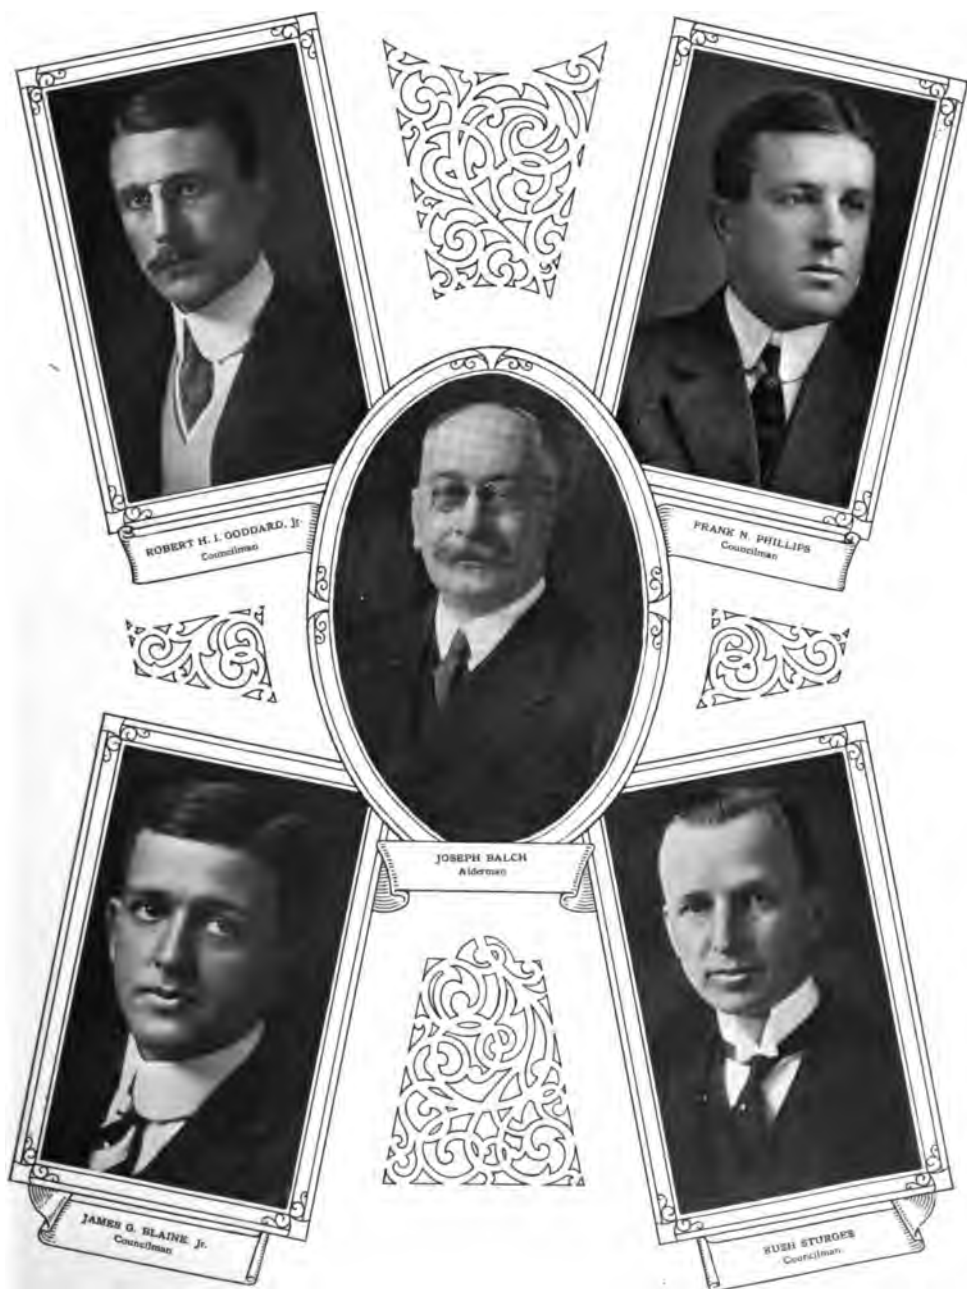

A City Plan Commission was created by the City Council December 2, 1913. An extensive list of duties was imposed upon it by the ordinance which created it. The appropriation which was given it was extremely small. Since its creation it has been very active. Its members who receive no financial compensation have been called upon to furnish their own services for a great amount of detail work, even in the way of draughting and tabulating. At least enough money should be furnished to allow the employment of assistants to do this class of work.

The Commission has made a survey and partial list of subjects of present and impending civic problems, involving the physical construction, arrange-

ment and equipment of the city. Of this list several subjects have been selected as of immediate importance.

A report with plans has been turned over to the City Council regarding "Isles of Safety" and traffic regulations at several public squares and street intersections. Plans have been completed for the development of the area north of the Union Station, known as the Public Garden. These plans provide for the elimination of the triangular piece of freight yard directly opposite the State House. Two professional experts of national fame have studied and approved them. The New Haven Railroad, the State Normal School, and the City of Providence have expressed their satisfaction with them. They are more simple and more inexpensive than any previously suggested, while at the same time they promise more gratifying and useful results, both in giving character to this long-neglected portion of the civic center, and in providing for the traffic requirements of the section.

The commission has also studied and completed plans for the improvement of the Woonasquatucket River and its bordering streets leading from the center of the city towards Valley Street and Davis Park, and the development of the northwest section, so-called. It is estimated that this section will furnish future residential accommodations for between fifty and seventy thousand people, as I have indicated elsewhere in this message.

WARD ONE

Digitized by Google

Plans have been worked out for a proposed cross-town street some two miles in length connecting the Woonasquatucket Valley with its new freight stations and wholesale produce districts via Arthur Avenue and Hoyle Square with the State Docks and the new Allens Avenue waterfront district.

The Commission has given much study to two principles, which if put into practice will save the city millions of dollars, the principle of Excess Condemnation, and the provision for Deferred Projects. The Commission's aim is to work out a "comprehensive plan for the systematic and harmonious development of the city, based primarily on practical utility and public convenience."

As can be seen, the task imposed upon this commission involves problems of much magnitude, and recommendations that will have an important bearing upon the future convenience, comfort, and attractiveness of the city. Its work should be productive of much economy in avoiding the conflict of plans apparently good in themselves but badly related to each other or insufficiently comprehensive to be of permanent value. If the commission is to accomplish the work which it was created to accomplish, it must be adequately supported and must be given sufficient appropriations to carry on its specified tasks.

FIRE DEPARTMENT.

The number of men in the Fire Department at the present time is 334. During the past year 6 vacancies have occurred. Two members have resigned, two have retired on pension, and two have died. Seven appointments have been made during the same period.

Until this year the members of the Fire Department have been allowed four days off duty each month without loss of pay. At the last general election the question was submitted to the voters of this city "Shall the men of the Fire Department be allowed one day off out of every five days without loss of pay." This question was decided in the affirmative by a vote of 17,112 to 4,851. The new system became operative November 23, 1914. The number of men absent from duty each day on account of its operation is increased from an average of 42 to 63.

The Fire Commissioners state that an additional force of 27 men is needed to restore the department to the efficiency which it possessed under the former plan of four days off each month. If this additional force is necessary to properly protect our citizens, additional appropriation must be given the department. The wages of 27 men from January 1, 1915 to the close of the current fiscal year would require an additional appropriation of \$17,085.40. This sum would be increased to \$29,027.70 during the fiscal year of 1915-1916, and thereafter annually the amount re-

quired for the wages of these 27 men, all of whom would reach the maximum rate of pay eighteen months after appointment would be \$32,521.50.

We must meet this situation squarely. The one-day-in-five proposition was most emphatically endorsed by the voters of Providence. Its operation unquestionably weakens the service to some extent. We must determine what that extent is and supply enough money to put the department on its former basis of efficiency. The consideration of this matter is now before the Joint Standing Committee on Finance, to whom the communication from the Board of Fire Commissioners was referred by the City Council on December 5, 1913.

The appropriation for the maintenance of the fire department during the fiscal year ending September 30, 1915 is \$505,000.00, a reduction of \$12,500.00 being made from the appropriation of the previous year. \$441,500.00, or 87% of the present appropriation will be required for fire purposes, use of fire hydrants, water for fire purposes, and repairs to fire stations. This will leave a balance of \$63,500.00 for all other expenses of the department.

FIRE ALARM SYSTEM.

The fire alarm system has been completely investigated and a report made containing recommendations in order to bring the system up to the proper standard of efficiency. The matter of revamping the fire alarm

central station and installing this equipment in a fire-proof building is now receiving the attention of the City Government. Doubtless some action will be taken for improving the system as recommended.

During the past two years a total of 53,594 feet of cable has been installed by the city, and 36 fire alarm boxes have been cut in on underground circuits. In addition, with only few exceptions, all of the fire alarm stations have been connected underground with the central fire station, in order to better serve the interests of the people by eliminating the liability of line trouble from the use of aerial circuits. Additional underground circuits should be installed so that even better protection to life and property can be had.

POLICE DEPARTMENT.

The active force of the Police Department numbers 385 men. The total expenditure for the fiscal year ending September 30, 1914, was \$544,060.15. The total receipts from 10,537 licenses issued during the same period was \$407,068.75.

During the past year the Commissioners have issued orders relieving the patrolmen of some of the hardships incident to telegraph duty and night details. The age limit for members of the force has been changed. Formerly the minimum age of applicants was 23 years, and the maximum age 30 years. The

minimum is now 25 years, and the maximum 35 years.

The expenses of the department have increased during the past two years \$57,700.54. This has been due, not to an increase in the number of men, the number of men on the force being practically the same as in 1912, but to the one-day-off each month which was granted in 1911 and began to show on the payroll in 1912; and the ten per cent. increase in wages which went into effect in 1913 and which was evidenced on the payroll in 1914.

In December, 1914 the City Council passed a resolution granting an additional day off each month to the members of the force. The Police Commission claim that in order to maintain the present efficiency of the force they will now require 13 additional policemen. If they are correct in their estimate, this increase will involve the additional appropriation for the police department during the present year and for subsequent years. These patrolmen would receive during the first year of service \$2.40 a day, and the amount required for the remainder of the current fiscal year would be \$8,762.03. The increased cost next year would be \$12,995.97, and after three years this amount would reach its maximum, \$15,658.50.

For the first time since the creation of the Police Commission its membership is not wholly Republican. January, 1913 witnessed the election of a Democratic member of that body.

CITY HOSPITAL.

During the year 1913 there were admitted to the hospital 1,018 patients. Up to December 9, 1914, which includes a little more than eleven months of the year, the number totalled 1,534, an increase of 599 over the corresponding period of 1913. During 1913, 36% of all the scarlet fever patients, 28% of all the diphtheria patients, and over 21% of all the measles patients in the city were admitted to the hospital. From these figures it can be readily seen that the hospital continues to grow in usefulness to the city, removing sources of infection from the community, and enhancing the chances of recovery of many who could not otherwise obtain proper medical care and nursing.

The hospital stands as a pioneer in the country. It has been copied by many cities already, and is constantly receiving visitors from all parts of the United States and Canada. In order to accommodate those seeking training in aseptic nursing, Dr. Richardson and the Hospital Commissioners have opened a training school at the hospital for graduate nurses who wish to be instructed in aseptic nursing technique.

The hospital has three pressing needs. A home for nurses, more accommodations for advanced cases of tuberculosis, and a psychopathic ward.

The nursing and other female help tax to the limit the quarters set apart for them. By the recent pur-

chase of a dwelling house on the hospital lot the situation has been temporarily relieved. If a nurses' home were started immediately it would scarcely be finished before it was absolutely necessary.

There is urgent need for more beds for advanced cases of tuberculosis. During the years 1913 and 1914, 40% of those placed on the waiting list were unable to be accommodated. On December 9, 1914, there were 23 on the waiting list, practically all of whom are getting little or no care at home. Whether the hospitalization of all cases of tuberculosis will have a marked effect on its prevalence or not, certainly from a humanitarian standpoint all needy patients should be provided with hospital accommodations.

Under our state law persons of unsound mind are brought before the court for commitment. It sometimes happens that physicians have little time to examine such cases properly. As a result many persons are sent to the State Hospital for the Insane who are only temporarily deranged. These cases clear up after a while, and the patient is discharged. Forever afterwards, however, he has hanging over him the stigma that he was once in an insane asylum. If a psychopathic ward were established at the hospital these cases could be observed, and treated. Many persons suffering from deranged mentality as a result of infectious disease or head injury, would then escape the asylum stigma. Several cities have already provided such observation wards.

SEWERS.

Nearly all sections of the city immediately in need of sewer facilities are supplied at the present time. Questions of grade and right-of-way have delayed the extension of the system in the section near the south city line, between the tracks of the N. Y., N. H. & H. R. R. and Reservoir Avenue, and in the Corliss Heights section. It is expected that these matters can be arranged soon and work ordered by the city.

Probably the most important work to be done in connection with the extension of our sewerage system is that which relates to the large area west of Academy avenue, between Chalkstone avenue and Smith street, in the Mount Pleasant district of the Tenth Ward. It is estimated that there is room here to furnish homes for fifty thousand people. This territory is absolutely undeveloped at the present time. Its development is impossible unless sewers and highways are built. The State Home and School now discharges all its sewage directly into the brook that flows through the Pleasant Valley Parkway. The Southern New England Railway Company intends soon to resume work upon the deep cut for the road-bed across this section. The City Plan Commission is working in connection with the Metropolitan Park Commission to develop a proper plan and layout for this whole territory.

A new 50,000,000 gallon pump is being installed at

the Ernest Street pumping station to take care of the natural increase of sewage and to make it unnecessary to discharge crude sewage, however much diluted, into the rivers during the time of heavy storms.

STREET RAILROADS.

The electric railroad situation has been materially changed during the past two years. In accordance with a federal mandate, the New York, New Haven & Hartford Railroad has given over the control of the Rhode Island Company to local trustees, who will eventually dispose of it to interests not allied with the New Haven. Many physical changes have taken place, also. The Exchange Place loop has been put into service, the East Side tunnel has been formally opened, the College Hill tracks have been removed, Mount Pleasant Avenue tracks have been laid, and tracks have been relaid in Elmwood Avenue, Dyer Avenue, Maryland Avenue, Smith Street, Friendship Street, and a part of Eddy Street. Car service has been improved to a considerable extent, although much greater improvement should be evident in the immediate future when the work which the city now has under way in the matter of new streets and street widenings is completed. The City, through its Public Service Engineer, is keeping a strict surveillance of the operation of the street car system and this fact has been of a decidedly beneficial nature to the citizens of Providence as well as to the railroad company.

When complaints relating to car service are received by the City Government, a city official is available who can ascertain the facts from a city standpoint. Formerly it was necessary to take the word of the railroad official for the facts.

OILING STREETS.

The City Council has appropriated money to oil all the macadam streets in which car tracks are laid, an approximate distance of 35 miles. On streets which are subjected to unusually heavy traffic the use of asphaltic oil has not proved entirely satisfactory. The department is trying other methods of dust prevention by using coal tar products in various ways. A demand is made upon the public works department to undertake the care of all the accepted streets in the matter of oiling. To do this a much larger appropriation is necessary than at present is available.

SUBWAYS.

A comprehensive subway system was worked out by a City Council Committee during the past term, with the assistance of Mr. William D. Lewis, who is associated with the Boston Transit Commission. This system provided for a continuation of the east side subway to Red Bridge, the building of a west side subway to Olneyville Square, a south subway to the junction of Elmwood Avenue and Broad Street, and a north subway to the junction of Branch Avenue

and North Main Street. Authority for the creation of a commission to undertake the establishment of subways was refused by the legislature. Comprehensive plans and detailed figures on this subject are now in the possession of the city government.

DEPARTMENT CHANGES.

During the past term the Department of the Clerk of the Common Council was consolidated with that of the City Clerk. This consolidation has greatly improved the keeping of the records of the legislative work of the city, avoiding much useless duplication.

The office of Commissioner of Public Buildings was created, the old office of Superintendent of Public Buildings being abolished. Prior to this change the City Property committee was swamped with a large mass of detail work which ought not to occupy the time of a legislative body. This work was transferred to the new official.

The Inspector of Smoke and the Superintendent of Steam Boilers were placed under the control of the Inspector of Buildings.

The Tax Department was re-organized. One of the three Tax Commissioners is now designated Chairman by the City Council, and three of the former clerks in the office have been made deputy commissioners. In its re-organized form this depart-

ment is in a position to render more efficient service to the public.

June, 1913, witnessed the establishment of the department of Public Service Engineer. I believe this is one of the most important as well as one of the most efficient departments in the city government. It has supervision of the public service corporations. Already it has rendered most valuable service to the community.

A Municipal Reference Bureau was created in March, 1914. This Bureau is operated under the direction of the City Clerk. It also has proved of great value to the members of the city government in collecting and tabulating information relative to the activities of other city governments, in addition to keeping them accurately in touch with the working of each of our own departments. It has also done good service in relieving the heads of departments of a mass of correspondence with other cities.

EXCHANGE PLACE.

During the past two years Exchange Place has undergone a radical change. A mall, planted with trees and shrubbery, occupies the center of the square. At one end of this mall is a building combining a comfort and waiting station, which was completed in 1914 at a cost of about \$37,000, the city appropriating \$25,520, and the balance being taken care of by the

Railroad Company under its franchise agreement to provide railroad shelters. Around this mall the railroad company has built a loop. This loop was planned apparently with reference to its surroundings. It is to be hoped that in the near future the faults now apparent in its planning may be remedied.

TELEPHONE FRANCHISE.

A committee of the City Council has just completed negotiations with the Providence Telephone Company for a new telephone franchise. The committee employed as an expert Mr. W. W. Anderson, of Lloyd Thomas & Company, New York, to advise with it in relation to this matter. The expert reported that the service was reasonably good but that there should be a reduction of about \$65,000.00 made by the company in the charges for that service. After conferences which occupied several months the committee finally reached an agreement with the telephone company whereby a reduction of \$61,000.00 will be effected. The company claims that concessions amounting to a greater sum than the foregoing have been made to the city by reason of the fact that the city's expert did not take into account the putting into effect of an eight-hour day during the past year and the increase of wages, amounting to \$23,000, given to its employees, in figuring his estimates for a reduction. The Committee aimed at using the amount of reduction

advised by its expert to lower the rates for residential telephones and measured service. The City Council will be called upon to pass on this contract during the next few weeks. I would advise the members of the Council to begin a study of this question at once.

STREET LIGHTING.

The new street lighting system was completed during August, 1914. The old system, which consisted of a total of 5,565 units, if operated at normal efficiency would give 1,023,054 candlepower of light, at an annual cost of \$282,413.39. The total number of new units installed is 9,261, with a total return in candlepower of 2,687,400, at a cost of \$260,000.00.

The net saving to the City of Providence per annum will be approximately \$22,400.00, with an increase of 67% in the number of units, 163% in candlepower and a decrease of 8% in maintenance charge. The former cost per capita was \$1.20. The present cost per capita is \$1.04. Two years ago we spent 6.4 of every dollar of taxes collected for street lighting. Today, for the same purpose, we spend only 5.5.

We are at present replacing all the 60 candlepower vacuum lamps, a total of 7,739, with 100 candlepower nitrogen lamps, giving an additional increase of 66% in illumination, with no extra expense to the City of Providence.

POWER AGREEMENT.

During the past term the Rhode Island Transmission Company sought a power franchise in the city. After months of discussion a tri-party agreement was entered into between the City, the Transmission Company, and the Narragansett Electric Lighting Company, by which the lighting company agreed to reduce its rates to power users in the city and to take a supply of hydro-electricity from the power company for sale to the citizens of Providence. By this agreement a reduction of rates for long hour customers, amounting to over \$60,000.00 per year on the basis of the present terms of the contract, was immediately made. A further reduction July 1, 1913 of over \$40,000.00 was effected. A still further reduction of about 20% will be granted when the R. I. Power Transmission Company begins to deliver its hydro-electricity to the Narragansett Electric Lighting Company.

WATER WORKS.

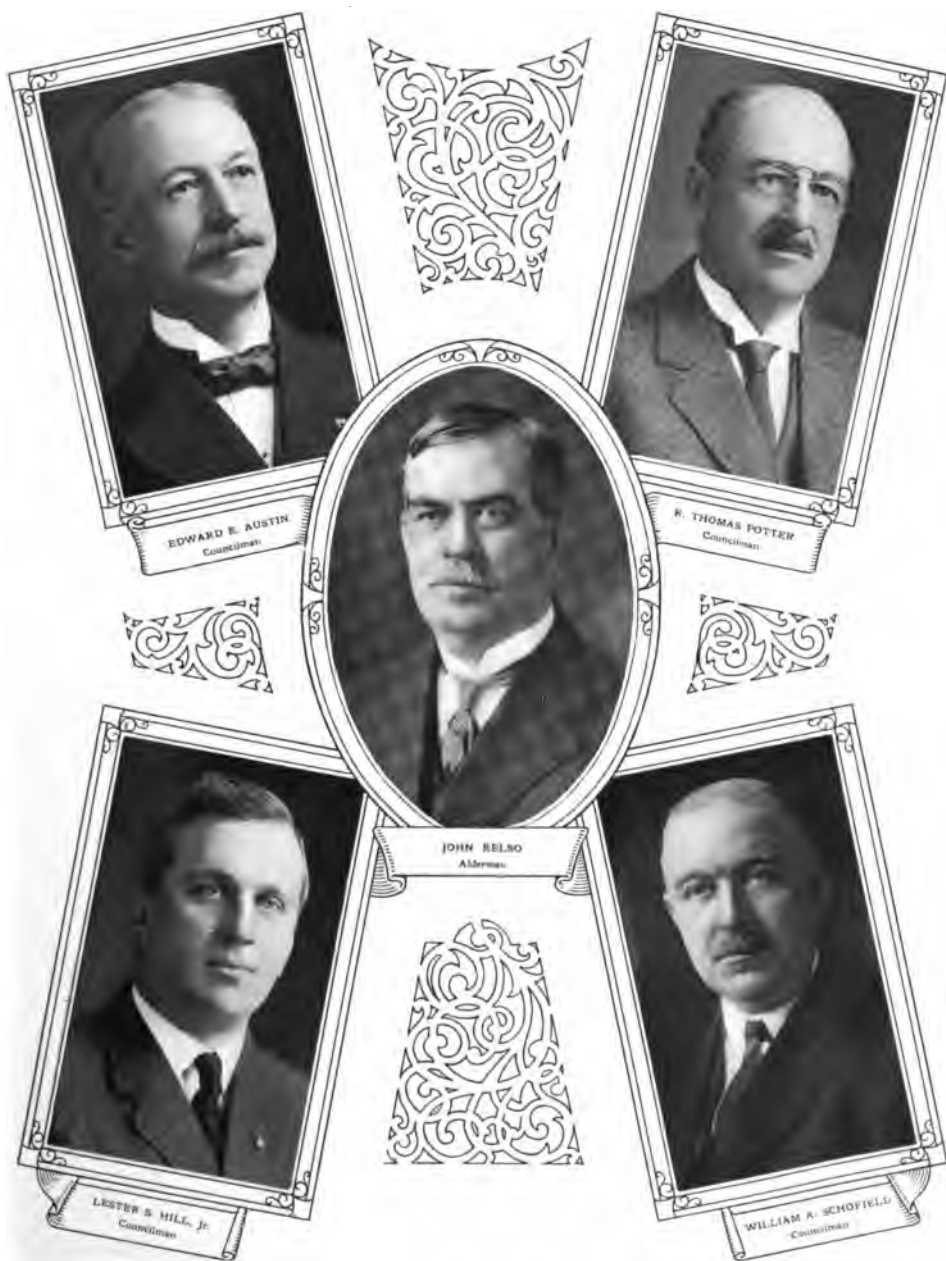

Practically all the work requested to be done by the Committee on Fire Protection of the National Board of Fire Underwriters in their last report relating to the condition of the Providence Water Works, has been accomplished. This included the installation of a 30,000,000 gallon pump at Pettaconsett Pumping Station, new boilers at the Hope Pumping Station, and the strengthening and extension of

both the high and low pressure distributing systems. Further work of increasing the size of water mains must be undertaken during the coming year, especially in streets that are being widened or otherwise improved.

During the past summer a complete electrolytic survey was made in the City of Providence and the total length of a single track of The Rhode Island Company, 70.5 miles, was carefully tested by means of a test car which was brought here for this purpose. I am informed that all districts in which corrosive damage is occurring, or has occurred, have been carefully investigated and means have been devised for the practical elimination of such damage.

The water main system in the City of Providence is in good condition, but of course this subject is one which should receive constant attention. Adequate provisions should be made for the elimination, at the outset, of all stray current traversing the main system so that future difficulties may be avoided.

The new 30,000,000 gallon electrically-driven centrifugal pump at the Pettaconsett station is to be used as an auxiliary means of supplying the city with pure drinking water. It is estimated that this pump will be needed from 75 to 90 days per annum, at the most. In so far as practicable the present 25,000,000 gallon Allis-Chalmers pump will be kept in service on account of its high efficiency, the electrically-driven pump being looked upon in the light of an insurance policy.

WARD TWO

RIVER POLLUTION.

Prior to January, 1913, the Commission on the Abatement of River Nuisances did certain things towards the cleaning up of the Woonasquatucket and Moshassuck Rivers. A new sewer was built in Kinsley Avenue to take care of sewage which was being diverted into the Woonasquatucket River. Another new sewer to relieve the Moshassuck River was constructed, connecting the termination of the Providence system with that of Pawtucket. A contract was entered into between the Cities of Providence and Pawtucket in November, 1910, in which Providence agreed to take care of the Pawtucket sewage at our precipitation plant, and in which Pawtucket agreed to sewer certain territory from which pollution was finding its way into the Moshassuck River. In addition to this, \$100,000.00 was spent on dredging the rivers near Market Square to relieve them of some of the mud which had accumulated.

At the beginning of my administration I began a study of this subject. I found the rivers badly polluted, discolored, and sending forth a vile odor. I decided the first step to take was to ascertain at what point this pollution was entering the rivers. I called a meeting of the Commission, consisting of the City Solicitor, the Commissioner of Public Works, and myself. After a careful study of the situation we found that in two instances our own sewers were

helping to pollute the river, and in several instances manufacturing concerns along the banks of both rivers were sending substances into them which apparently ought to go into sewers already provided for that purpose. We found, also, that portions of the river banks were being used as dumping grounds for swill and debris. All this came from the City of Providence itself. But we learned further that most of the contamination was coming into the rivers outside of the City of Providence, from the City of Pawtucket and from territory further north. We also learned that the City of Pawtucket had not yet complied with the terms of the 1910 agreement, by which it was to sewer the territory along the Moshassuck River from which the bulk of the pollution came. The City Engineer informed us that he had found a way of preventing contamination within our own limits. The dumping nuisances on the river banks were turned over to the health department. Conferences were held with the manufacturers within our city, and cooperation with the city authorities was promised by them. I wrote the Mayor of Pawtucket August 11, 1913, calling his attention to the non-compliance of Pawtucket with the terms of the 1910 agreement, and asked his cooperation. Four days later I received a letter from Mayor Easterbrooks in which he informed me that at a special meeting of the City Council of the City of Pawtucket, held August 13th, called for that purpose, an appropria-

tion was made for the construction of sewers in the "slaughter house district," so-called, and that he would use his best endeavors to carry out the whole programme guaranteed by Pawtucket. Since then much work has been done by the City of Pawtucket, and I have reason to believe that by next spring the Moshassuck River will be relieved of the pollution now entering it from this source. I am informed by the City Engineer that neither river is receiving any appreciable pollution within the city limits.

Both rivers ought to be in charge of a State Commission. Whether this Commission be the State Board of Health, or a new Commission created for the purpose, I care not. The important point is that some State body should be in control of this work, with power to enforce its demands, a thing which the Providence Commission cannot do outside of the city limits. Our Commission on the Abatement of River Nuisances made this recommendation to the City Council last year. The City Council asked the State for legislation in this direction, but nothing was done.

When these sources of pollution outside of our borders are removed, I would recommend the narrowing of the river bed so as to provide a more rapid flow in the center of the city, and the building of some sort of dam which will prevent the back-wash of the salt water into the fresh water. I see no sense, however, in spending a dollar of the city's money on these

rivers until the sources of pollution from outside our borders are removed.

OLNEYVILLE GRADE CROSSINGS.

The only definite step taken towards the elimination of the Olneyville Grade Crossings prior to January, 1913 was the passage by the City Council of a resolution authorizing the expenditure of \$35,000.00 for that purpose, and the establishment of a commission, consisting of the Mayor, the City Solicitor, the Commissioner of Public Works, and the Chairman of the Committee on Relations with the N. Y., N. H. & H. R. R., to supervise the project.

The first bit of land purchased for the accomplishment of this work was acquired in April, 1913. Since then all the land required has been obtained, the bridges built, and every case with the adjacent land owners settled. The city's expenditure for land damages has been \$43,811.19. A few minor details, such as slight change of grade on one of the streets in the vicinity, and the relocation of the passenger station, remain to be completed.

There has been splendid cooperation between the City and the Railroad in this work. Mr. Louis D. Richardson, the Commission's agent, deserves special credit for his efforts in effecting many of the settlements involved. The Commission in charge of the work did not receive a penny of compensation for its

labors, in marked contrast to a number of commissions appointed for the layout of streets during the same term. The elimination of these grade crossings marks the passing of grade crossings in the City of Providence, and ought to prove of great benefit to the people of that vicinity.

HARBOR.

The new State Pier was formally opened during the past term, and a contract made for the use of a portion of it by the Fabre Line. Work has been done on the deepening of the channel by the United States Government.

The most important city work accomplished in the harbor for years has been the building of the new sea wall at Field's Point. The construction of this wall, which was begun in June, 1912, was recently completed. This wall extends along the harbor line, opposite the city's property, from the Gas Company's land, southerly to the angle in the harbor line on the south side of Field's Point, and has a total length of 3,000 feet. The amount expended for the construction of this wall, including new sewer outlets, trestle and crane for transferring the pressed sludge from cars to scows and all other incidental work, will, it is estimated, amount to approximately \$618,500.00. The present depth of water available for vessels alongside of this wall is 25 feet mean low water, but the

foundations are of sufficient depth to allow for dredging 5 feet deeper, allowing for a total depth of 30 feet mean low water.

The work of filling the low area back of the wall and extending in to the shore line at the foot of the bank is now in progress, and is expected to be completed about the first of next July, at an estimated cost of \$60,000.00. A portion of the material for this filling is obtained by grading for a new street to extend from Allens Avenue to near the middle portion of the new wall. This street will give vehicles access to the new harbor front and will be necessary when the contemplated railroad improvements in this section are carried out.

When the filling back of this wall, which is now in progress, is completed, there will be about 17 acres of new public water front available for business purposes abutting on the harbor line for a distance of 3,000 feet, and extending back about 250 feet.

In addition to the money spent on this harbor improvement the city has made large expenditures in Allens Avenue and has in contemplation other improvements in this neighborhood.

It seems to me the time is ripe for the city government, now that it has facilities which ought to attract shipping to this port, to see to it that those facilities are brought to the attention of shipping and manufacturing interests. I would recommend that the

Harbor Committee of the City Government give this matter its attention during the coming term. Perhaps a study of the situation might reveal to it the need of a Director of the Port of Providence. In any event the money recently spent on the west side of our harbor and the approaches thereto will justify a study by some committee of the city government to see that the city receives adequate returns on its investment. I suggest the Harbor Committee because it seems to be nearer its province than that of any other, and because of the fact that it is not over-burdened with work as some other committees of the city government are.

PARKS.

In addition to the work done for the Board of Recreation, the Park Commission has been active during the past two years. It has laid out the mall in Exchange Place with trees, shrubbery and plants. Plans have been drawn and the contract awarded for an addition to the museum building at Roger Williams Park, the cost of which will be \$44,781.00. Bids have been advertised for an auditorium and bandstand at the Park, which will cost \$13,000.00, and a gateway, which will cost \$1,500.00. Incidental improvements, amounting to \$1,000.00, will bring the total cost of this latter work up to \$15,500.00. The Commission has been authorized to contract for the construction of an iron fence

of about two thousand feet, at a cost of not exceeding \$3,300.00.

CITY HALL REMODELING.

Extensive alterations are being made at City Hall. The principal changes are being made on the top floor of the building heretofore used for storage. The plans call for the utilizing of this floor for office purposes. It is estimated when the work is completed that there will be 11,496 feet of space available for offices, 3,182 additional feet for corridor and light shaft, and 1,550 feet for storage. The contracts for the work are as follows:

General Contract	\$101,814
Plumbing Contract	1,000
Heating Contract	1,275
Electric Wiring	810
	<hr/>
	\$104,899

In addition to these contracts a new elevator is to be installed, and the heating system renovated. The total appropriation for the work is \$150,000.00.

RECREATION ACTIVITIES.

Prior to 1913 the municipal recreational activities of the City of Providence were confined to the operation of playgrounds during a few weeks in the summer season. This work was excellent, but its scope was

narrow. In my message of two years ago I recommended the establishment of a Board of Recreation which would extend the season of supervised play for the child, and make provision for the profitable occupation of the leisure hours for the youth and the citizen of mature years.

An ordinance creating such a Board went into effect May 16, 1913. On the fourth day of June following the Board organized. The Board now employs at a salary Mr. Joseph J. McCaffrey, as Superintendent, and Miss M. Josephine O'Connor, as Assistant Superintendent, both of whom have been connected with the playground movement since its inception in this city.

During the nineteen months of its existence excellent results have been attained. Playgrounds and playfields are now in operation the greater part of the year. All-day recreation supervision has largely replaced part-day supervision. The playgrounds now in use number nineteen. Five new centers of activity, the Ridge Street, the Quaid Street, the Joslin Street, the Knight, and the Neutaconkanut properties, have been recently acquired and will be in use next year. The Ridge Street property contains 27,579 square feet; the Quaid Street land an area of 33,725 square feet; the Joslin Street land an area of 36,622 square feet for playground, and 95,311 square feet for ball field; the Knight land, bounded by Dabol,

Whitmarsh, Bucklin and Dexter Streets, an area of 308,744 square feet; and the Neutaconkanut land, an area of 251,851 square feet.

The Prairie Avenue and the Tockwotton fields have been greatly improved. During the year 1913 a large area on the east side of Tockwotton Park was graded as part of the base ball field, a retaining wall constructed, and the field enclosed by a steel wire fence. In 1914 the Prairie Avenue field was enclosed by a similar fence at a cost of \$2,700.00. Recreation buildings were also erected in 1914 at the Garibaldi playground and at Hopkins and Tockwotton Parks. All of these improvements were made by the Park Commission at the request of the Board of Recreation.

The attendance has increased materially at the various recreation fields during the past two years. In 1912 the number in attendance was 158,141. In 1914 it was 437,614. The number of baths operated under the direction of the Board has increased to eighteen. The number of children using these baths in 1914 was 83,976, as against 33,016 in 1912.

Each playground is provided with a flagstaff and an American flag, and each day the flag is raised and lowered with appropriate exercises. Among the innovations made by the Board last year was the employment of a swimming instructor at Merino Park and Metcalf Field. This addition to the staff of instructors proved extremely popular.

The larger boys were not overlooked. Through a system of weekly permits the Board allowed the amateur leagues of the city to use the larger play-fields Saturday afternoons and holidays. During the past term the Honorable Jesse H. Metcalf presented to the State a large tract of land on Charles Street. The Metropolitan Park Commission laid out on this tract a base ball field, and added a second diamond to the splendid base ball field at Merino Park, another Metropolitan Park reservation. On both of these fields the Board of Recreation supervises the activities.

Last year for the first time in the history of the city, outdoor skating rinks were started at the larger fields by banking and flooding. The adult population as well as the youth of the city flocked to these fields in large numbers, proving beyond question the popularity of the experiment.

Two civic centers were recently opened, one in the Veazie Street school building, and the other in the old Eddy house on Ridge Street. Although their existence has been too brief to prophecy their future, the attendance at both centers thus far warrants the conclusion that they are filling an urgent need.

A larger appropriation is needed to carry on the work effectively. We need more field houses, and more permanent equipment generally. We need more recreation centers. I would suggest to those

who have the means and who are philanthropically disposed that they consider the advisability of donating field houses and wading pools to the city. I know of nothing which would do more real good or which would more surely perpetuate the name of the donors.

I have given much space to this subject because I am deeply interested in it. I feel that the need of recreation work is not generally understood nor appreciated. Money spent now in furnishing children and young boys and girls with healthy occupation for their leisure hours will be saved in houses of correction, jails, hospitals, and insane asylums in later years. An appropriation for neighborhood centers where the adult population of the community can gather together for wholesome diversion and instruction is the best defence against the incursion of the anarchist among the ranks of the poor, and the best bulwark for the support and maintenance of a healthy and contented citizenship.

In preparing this message I have conferred with the heads of the various departments. They have very kindly given me a record of their accomplishments during the past term. I take this opportunity of thanking them for their assistance.

Respectfully submitted,

JOSEPH H. GAINER,

Mayor.

JOINT RULES
AND
JOINT COMMITTEES
OF THE
CITY COUNCIL.

ORDINANCES OF THE CITY OF PROVIDENCE,
CHAPTER 14.

(Revision of 1914.)

COMMITTEES OF THE CITY COUNCIL.

SECTION 1. There shall be biennially appointed, immediately after the organization of the city government, the following joint standing committees of the city council who shall hold their offices until the expiration of the current municipal term, viz.: a committee on finance; a committee on highways; a committee on education; a committee on the fire department; a committee on city property; a committee on ordinances; a committee on claims; a committee on printing; a committee on parks; a committee on railroads; a committee on sewers; a committee on the north burial ground; a committee on the harbor; a committee on lights; each of which committees shall consist of four members of the common council to be appointed by the president of the common council, and one alderman to

be appointed by the mayor ; and a committee on the city engineer's department, to consist of the mayor, the president of the board of aldermen, the president of the common council, the chairman of the joint standing committees on highways and sewers, and one member of the common council to be appointed by the president thereof.

SEC. 2. The mayor, the chairman of the police committee of the board of aldermen, the president of the common council, and the chairman of the joint standing committee on the fire department, are hereby created a joint standing committee of the city council for the relief of disabled firemen and policemen, in accordance with and subject to the following provisions: When any member of the fire or police department of the city of Providence, while in the actual performance of his duty as a member thereof, has become or shall hereafter become permanently disabled, he shall be entitled to and paid such sum or sums as said committee may in its discretion, and after hearing upon any application for relief for the cause aforesaid, determine to be just and proper ; and said committee is hereby further authorized to draw its order upon the City Treasurer for such amount, which order shall be charged to the special appropriation hereinafter named. In no case shall such allowance exceed the sum of four hundred dollars per annum to any one person. Should any member of the fire or police departments be killed, or die from the effect of injuries received while in the actual performance of his duty, or from any disease contracted while in the performance of his duty, leaving a widow and children, or either a widow or children, dependent in whole or in part upon the services of such deceased fireman or policeman for support, such widow or children, or both, may in the discretion of said committee, and upon due application therefor, be allowed a sum not exceeding

three hundred dollars per annum, to be paid to such widow and children, or either of them, in such manner and in such sum or sums as said committee may from time to time adjudge to be proper. In no event shall the widow of any deceased fireman or policeman be entitled to an allowance under the provisions of this section after remarriage. The aggregate amount allowed for relief under this section shall not exceed the sum of five thousand dollars as limited by Chapter 466, Public Laws of Rhode Island, passed March 9, 1909.

SEC. 3. Joint Committees, whether standing or special shall have power to elect their own chairman; and in default of such election, the member first named on a committee shall be chairman thereof, and in case of his resignation or inability, the other members, in the order in which they are named, shall act as chairman.

SEC. 4. Any joint standing or special committee of the city council and any standing committee of the board of aldermen is hereby authorized, at any time or from time to time, to secure, in the name of the city or in the name or names of any person or persons designated by such committee, for the city, an option or options for the purchase of any land or lands in the city, which in the opinion of such committee may be required by the city for public or municipal purposes; provided, that any resolution or vote of any such committee to obtain the same shall be first approved in writing by the mayor before any step to secure the same shall be taken. Such committee is authorized, if necessary, to pay as the consideration for any such option secured and for the services of any broker or other person or persons employed by such committee to secure the same, not exceeding the sum of one hundred dollars, or if no such person is so employed not exceeding said

sum for said option consideration only, which shall be payable from any appropriation covering the purchase of such land or lands. If at the time of securing any such option no such appropriation has been made, such payment shall be made from the appropriation for contingencies, and all such payments so made shall be returned to the appropriation for contingencies, and charged to any appropriation covering the purchase of such land or lands when such appropriation is made. The city auditor is hereby directed, from time to time, upon approval of the mayor, to forthwith make, certify and transmit to the city treasurer for payment, a schedule of all sums of money payable pursuant to the provisions hereof. Upon the approval by the mayor of any such resolution or vote, a copy thereof, certified by the clerk of the committee, with the approval of the mayor endorsed by him thereon, shall be filed in the office of the city auditor, but shall not be opened to public inspection pending the securing of the option, and, if the same is obtained in the name of any person other than the city, not until after the time specified therein for exercising the option shall have expired.

SEC. 5. Joint standing committees shall cause a record of their proceedings to be kept in a book provided by the city for that purpose, and no report shall be received unless agreed to in committee actually assembled.

SEC. 6. Every joint committee to which any subject shall have been referred shall report thereon within four weeks to the branch making such reference, or shall ask for further time; and all joint special committees shall report to the city council, at least once in three months, the condition of the matter referred to them, and shall also, biennially, in the month of January, make to the city council a full report

WARD THREE

of the matter referred to them, and shall thereupon be *ipso facto* discharged from the further consideration of the matter referred to them, unless they shall by joint resolution be continued as such special committee.

SEC. 7. From and after the time any member of any joint special committee ceases to be a member of the city council, he shall thereupon cease to be a member of such committee; and the vacancy on such committee thereby created shall be filled by appointment made by the presiding officer of the branch of the city council of which he was a member.

SEC. 8. All reports and other papers submitted to the city council shall be plainly legible and on separate sheets of paper, and shall be suitably indorsed by the member presenting the same; and no other indorsement or report of any kind shall be made on the reports, memorials or other papers which may be referred to any joint committee, except such as may be made by the clerk of either branch of the city council. All reports shall be signed by the writer thereof, unless otherwise ordered by the committee.

SEC. 9. No chairman of any joint committee shall audit or approve any bill or account against the city for services or supplies, unless the same shall have been ordered by the committee, nor shall he approve any bill or account except by vote of the committee.

SEC. 10. There shall be elected biennially, as aforesaid in the month of January, by ballot in each branch of the city council, a joint committee on accounts, to consist of two on

the part of the board of aldermen and five on the part of the common council.

* * * *

(Sec. 3, Chapter 20, Revised Ordinances of 1914.)

Whenever any vote shall be taken in either branch of the city council upon any ordinance, resolution or order involving the expenditure of money, the ayes and noes shall be called.

RULES OF ORDER
OF THE
BOARD OF ALDERMEN.

(Adopted January 4, 1915.)

FIRST.

The Mayor, and in his absence the president of the board shall preside, and in the absence of both the Mayor and the president, the president *pro tempore* shall preside.

SECOND.

The chair shall preserve decorum and order, may speak on points of order in preference to other members, and shall decide all points of order subject to an appeal to the board by motion regularly seconded, and no other business shall be in order till the question on appeal shall have been decided by a majority vote of the members present.

THIRD.

Any member desiring to speak, shall address the chair, and after his right to speak has been recognized, he shall not be interrupted while speaking, except by a call to order, or for

the correction of a mistake; he shall confine his remarks to the question under debate, and shall avoid personalities; there shall be no conversation among members while such member is speaking, while a paper is being read, or while a question is being stated from the chair.

FOURTH.

The chair shall enforce order and decorum among persons outside the bar, and any person addressing the board by permission or by request shall while speaking, be subject to the same rules and entitled to the same privileges of order as pertain to a member of the board; provided, however, that a member of the board may interrupt such speaker for the purpose of asking a question or of obtaining information.

FIFTH.

When a question is under debate, the chair shall receive no motion except "to adjourn," "to lay on the table," "to postpone to a day specified or indefinitely," "to commit," "to amend" which several motions shall have precedence in the order here named.

SIXTH.

When a vote has been passed, it shall be in order for any member to move a reconsideration thereof at the same meeting, or to give notice in writing of his intention to move a reconsideration at the next meeting; in which case the clerk shall retain possession of the papers until the next meeting but no longer; and when a motion to reconsider has been decided, that vote shall not be reconsidered.

SEVENTH.

Every member who shall be present when a question is put shall vote thereon, unless excused for reasons to be stated at the time, and by two-thirds of the members present voting in the affirmative, without debate.

EIGHTH.

Every ordinance, resolution or order, after being read, shall be laid on the table until the next meeting at the request of three members, but shall not lie on the table for a longer time, except by special vote or general consent.

NINTH.

The order of business at each meeting shall be as follows:

1. Referred business, including citations, grading and receiving streets, and other matters connected with the highways.
2. New business, consisting of executive communications, petitions, memorials, remonstrances, reports, motions, orders, resolutions, elections, granting licenses.
3. Papers from the Common Council.

Provided, however, that at all meetings especially called by the Mayor, the special business for which such meetings is called shall be first in order, and shall be taken up and exclusively considered until it is finally acted upon at such meeting, and no other business shall be acted upon or considered at such meeting except by the unanimous consent of the board.

TENTH.

No person shall be allowed inside the bar, during the session of the board, excepting members and officers of the board and the reporters of newspapers employed to do the city printing, unless by special invitation from the chair, or from a member of the board through and with the approval of the chair.

ELEVENTH.

All committees and heads of departments having reports to make or business to present to the Board of Aldermen shall give notice to the clerk of their intention to present such reports or business at least three days before the meeting of the Board of Aldermen in order that the same may be printed upon the docket; and no such report or business shall be considered unless notice of the same shall have been given as herein provided.

TWELFTH.

The Mayor shall appoint all committees of the board, and shall also appoint aldermen to all joint committees of the City Council; and the clerk of said board shall be *ex-officio* clerk of all standing and special committees of the Board of Aldermen.

THIRTEENTH.

There shall be biennially appointed, immediately after the organization of the Board of Aldermen, the following standing committees, viz.: A committee on armories, a committee on auctioneers, a committee on bridges, a committee on health department, a committee on police, a committee on street signs and numbers, a committee on streets, a committee on milk,

and a committee on damages under the dog law, each of which shall consist of three aldermen. There shall also be appointed a committee on the poor department, which shall consist of three aldermen, who shall have the general supervision of the poor department, and all bills contracted or expenditures incurred by the Overseer of the Poor shall be approved by said committee. There shall also be appointed a committee on hackney carriages, which shall consist of three aldermen, who shall have the supervision of the granting of licenses for hackney carriages and other vehicles.

FOURTEENTH.

Each alderman upon the receipt from the Inspector of Buildings of an application to build, alter, enlarge or use a building for a stable, shall examine the premises, and consult the owners, or one of them, if known to such alderman, of each of the estates adjoining such proposed location, and report said application to the Board of Aldermen, and the same shall lay on the table for two weeks, and shall bear the recommendation of the aldermen before being acted upon by the Board.

FIFTEENTH.

No proposed ordinance shall be adopted on the part of the Board of Aldermen, until after copies thereof have been printed and mailed to the members of the Board at least 72 hours previous to the meeting at which the same will be in order for action thereon.

Every committee, commission, person or persons, to whom any proposed ordinance is referred, and who shall decide to recommend the passage thereof, shall cause copies thereof to be printed and mailed to the members of the City Council at

least seventy-two hours previous to the meeting at which the same will be in order for action thereon, and the expense thereof shall be charged to the appropriation for the City Council. And this rule shall not be subject to the provisions of Rule Sixteen of the Rules of Order of the Board of Aldermen, but may be altered, amended, suspended or repealed at any time by a vote of seven members elected to the Board of Aldermen except as hereinafter provided.

It is provided, however, that ordinances granting permission to erect poles and wires for the purpose of supplying electric light, heat, power or telephones when presented with the recommendation of the Commissioner of Public Works, may be adopted at the meeting when presented, and without copies thereof being printed and distributed as hereinbefore provided, unless objection is made against final action at said meeting by one-fifth of the members present.

SIXTEENTH.

The foregoing Rules shall not be altered, amended, suspended, or repealed at any time, except by the vote of the majority of the whole number of members elected to the Board of Aldermen.

•

RULES OF ORDER
OF THE
COMMON COUNCIL.

(Adopted January 4, 1915.)

FIRST.

The President shall take the chair at the hour appointed for the meeting by the Council, and shall call the members to order on the appearance of a quorum, and shall cause the journal of the preceding meeting to be read. Unless otherwise ordered from time to time the regular meeting of the Common Council shall be held at eight o'clock P. M., on the first Monday in each calendar month, excepting, however, the months of July and August, when summer recess is held, and also *excepting* the month of September, when the regular meeting shall be held on the second Monday in September.

SECOND.

He shall preserve decorum and order; may speak on general questions as other members, and on points of order, in preference to other members. He shall decide all questions of order, subject to an appeal to the Council by any one member.

THIRD.

Every question shall be distinctly put by the President. When a vote is taken by ayes and noes, and the President doubts, or a division be called for, the Council shall divide.

FOURTH.

Any member desiring to speak, shall address the chair, and after his right to speak has been recognized he shall not be interrupted while speaking, except by a call to order, or for the correction of a mistake; he shall confine his remarks to the question under debate and shall avoid personalities; there shall be no conversation among members while such member is speaking, while a paper is being read, or while a question is being stated from the chair.

Every member present, when a question is put, shall give his vote, unless the Council, for special reasons, excuse him.

FIFTH.

Every motion shall be reduced to writing if the President directs, or any member of the Council requests it, and may be withdrawn before a decision or amendment.

SIXTH.

When a question is under debate, no motion shall be received, unless "to adjourn," "to lay on the table," "to postpone indefinitely," "to postpone to a day certain," "to commit," "to amend," which several motions shall have precedence in the order in which they are here arranged.

SEVENTH.

No motion or proposition of a subject different from that under consideration shall be admitted under color of amendment.

EIGHTH.

When a vote has been passed, it shall be in order for any member to move a reconsideration thereof at the same meeting, or to give notice in writing of his intention to move a

reconsideration at the next adjourned meeting; in the latter case the clerk shall retain possession of the papers until the next adjourned meeting; and when such notice of an intention to reconsider has been given, no subsequent motion to reconsider the vote passed shall be in order at the same meeting, unless upon a withdrawal of the notice; and when a motion to reconsider has been decided that vote shall not be reconsidered; and the same resolution shall come but once before the Council for reconsideration.

NINTH.

The following order of business shall be observed in all cases :

After the clerk shall have read the record of the preceding meeting which record is hereby made the duty of the clerk to keep, communications from the Mayor shall then be received, read, and disposed of.

The unfinished business in which the Common Council was actually engaged at the time of its last adjournment shall then be taken up and disposed of. No other unfinished business shall be in order.

The President shall next call upon standing committees for their reports in the following order, viz. :

Ordinances,	Education,
Finance,	Printing,
Claims,	North Burial Ground,
Highways,	Harbor,
Sewers,	Accounts,
Fire Department,	Parks,
Railroads,	Lights and
City Property,	Water.

and their reports shall be received and disposed of; and no

other reports shall be made by the standing committees at that meeting.

The President shall next call upon special committees for their reports; and their reports shall be received and disposed of; and no other reports shall be made by any special committees at that meeting.

Business which may have been received from the Board of Aldermen shall next be taken up and disposed of.

The President shall then call for petitions and miscellaneous business, which shall be received and disposed of.

No business shall be offered, received, or acted upon, except in the foregoing order, except that a motion to adjourn, and a motion to invite the Board of Aldermen to join the Common Council in convention shall always be in order, and may be acted upon at any time during the meeting.

Questions respecting priority of business shall be decided without debate.

Provided, however, that at all meetings specially called by the Mayor, the special business for which such meeting is called shall be first in order and shall be taken up and exclusively considered until it is finally acted upon at such meeting, and no other business shall be acted upon at such meeting, except by vote of two-thirds of the members present.

TENTH.

Any rule may be amended or repealed by a majority of two-thirds of the members voting but no such proposed amendment or repeal shall be acted upon at any meeting on the day when presented. The same majority may by vote dispense with any rule for the meeting at which such vote is had.

ELEVENTH.

All committees shall consist of four members, and shall be appointed by the President, unless the Council shall order otherwise. And no report not in writing shall be received by the President without the consent of the Council being first asked and had.

TWELFTH.

No member shall speak more than once on the same question, until all other members desiring to speak thereon shall have done so, and no member shall speak more than twice on the same question, if any member objects, without the permission of the Council being first asked and obtained.

THIRTEENTH.

A special order of business may at any time be voted by the Council for its next ensuing meeting, which order so voted shall in such case have precedence for that meeting, of the order hereinbefore established.

FOURTEENTH.

It shall be the duty of the Clerk of the Common Council, in person or by deputy, to transmit from the Common Council to the Board of Aldermen, all such papers and communications as should be transmitted to said board.

FIFTEENTH.

It shall be the duty of the Clerk of the Common Council to transmit to the Mayor all papers and communications finally acted upon by the Common Council, and requiring the action of the Mayor.

SIXTEENTH.

Every ordinance presented shall, before being finally acted upon, have two readings, the first at the meeting in which said ordinance is presented, and the second at the next regular meeting, *provided, however*, that both meetings shall not occur upon the same date, and it shall be the duty of the Clerk of the Common Council to indorse upon said ordinance the date upon which said readings are held.

No proposed ordinance, or resolution authorizing or making any franchise contract for the use of public highways, or resolution authorizing the expenditure of money, in excess of Five Hundred (500) dollars, or resolution to apply to the General Assembly for legislation, shall be adopted on the part of the Common Council, until after copies thereof have been printed and mailed to the members of the Common Council at least seventy-two hours previous to the meeting, at which the same will be in order for action thereon. Every committee or commission which shall have under consideration and which shall decide to recommend the passage of any proposed ordinance or any such proposed resolution shall cause copies thereof to be printed and mailed to the members of the City Council at least seventy-two hours previous to the meeting, at which the same will be in order for action thereon, and any expense therefor shall be charged to the appropriation for the City Council.

It is provided, however, that ordinances granting permission to erect poles and wires for the purpose of supplying electric light, heat, power or telephones, when presented with the recommendation of the Commissioner of Public Works, and resolutions to construct sewers, define grades, lay out streets, remit taxes and to settle claims, may be adopted at the

meeting when presented, and without copies thereof being printed and distributed as hereinbefore provided, unless objection is made against final action at said meeting by one-fifth of the members present.

SEVENTEENTH.

The Clerk of the Common Council shall cause to be printed for the information of the members a Docket of the business to be considered at each meeting of the Common Council. All committees and heads of Departments having reports to make or business to present shall furnish the clerk with a definite statement of the business to be presented at least ninety-six hours before the meeting of the Common Council in order that the same may be printed on the Docket; and no such report or business shall be considered unless notice of the same shall have been given as herein provided. Said Docket shall be mailed to the members at least seventy-two hours previous to the meeting of the Common Council.

EIGHTEENTH.

No person except a member of the Council, shall be permitted to occupy the seat of any member while the Council is in session. The seats of the members of the Council shall be numbered, and shall be determined in the following order: The choice of seats shall be selected in the order of seniority of service. When two or more members have served the same length of time the seats of said members shall be determined by drawing the names, and, in the order drawn, they may have their choice of the remaining seats. The seats of all other members shall be determined in the same manner. Each member shall be entitled for two years to the seat he has selected in accordance with the provisions of this rule,

and he shall not change it, except by permission of the President. The City Messenger shall allow no person upon the floor of the council chamber, or in the adjoining committee rooms, while the Council is in session, except members of the city government, heads of departments, and reporters, without permission of the President. The President shall order such accommodations upon the floor for reporters and spectators as he shall deem proper, *provided, however*, that no spectators shall be seated near the desks of members of the Council, except on the day of the organization of the City Government.

SCHEDULE OF WATER RATES.

The following rates will be charged, until further notice, for the use of Pawtuxet river water:

For Dwelling Houses occupied by one family.

One faucet	\$6 00
Each additional faucet not hereinafter specially rated	2 00
One bath tub	5 00
Each additional bath tub	3 00
One water closet of approved kind	5 00
Each additional water closet	3 00
One self-closing urinal (none others allowed)	3 00
Each additional urinal	2 00
One set basin	2 00
Each additional set basin	1 00
Set wash tubs, not exceeding three tubs, one set	3 00
Each additional set wash tubs	1 00

Provided that no private dwelling be charged over \$40.

For Dwelling Houses occupied by more than one family.

Each family having separate fixtures will be charged the same as if living in a separate house.	
If using the same fixtures, each additional family	\$5 00

For Stores, Warehouses, Offices and Shops requiring no more than an ordinary supply of water.

For the same fixtures, the same price as for dwelling houses.	
If any tenant, having no fixtures, has access to any fixture, there will be charged for each such tenant	\$2 00

For Hotels, Boarding Houses, and Lodging Houses.

In addition to the rates for families, there will be charged for each bed for boarders and lodgers	\$1 00
--	--------

For Refectories, Confectioners, Eating Houses, Fish Markets, Bar Rooms, Refreshment and Oyster Saloons.

According to quantity of water used	\$10 00 to \$50 00
---	--------------------

For Meat Markets and Provision Shops.

According to quantity of water used	\$8 00 to \$30 00
---	-------------------

For Photographers.

According to quantity of water used	\$15 00 to 40 00
---	------------------

For Printing Offices.

According to the number of presses used, not including supply for steam boiler	\$8 00 to \$40 00
--	-------------------

For Bakeries.

According to average daily use of flour per barrel, not including supply for steam boiler	\$3 00
Provided, however, that no bakery shall be charged less than \$8 00.	

For Greenhouses and Graperies.

According to quantity of water used	\$8 00 to \$30 00
---	-------------------

For Fountains.

½-inch jet, average use, six hours per day for six months in the year ..	\$10 00
¼-inch jet, average use, etc.	40 00
Other sizes in proportion.	

For Garden Hydrants and Street and Window Washers.

No hydrants allowed unless at least \$6.00 is paid for water for other purposes.

For hose with nozzle not exceeding 3-16 inch diameter, to be used not exceeding one hour per day on the premises of the water-taker only, including one-half of width of street	\$5 00
---	--------

For use on neighbor's premises, including his part of street	5 00
--	------

No larger nozzle will be allowed except by special permit for which a proportionate charge will be made.

Special permits will also be given for use for longer time, on payment for such time.

The use of hose will not be allowed without charge therefor, and are only allowed to be used by holding the hose in the hand.

☞ The charge for use on neighbor's premises does not include the right to supply water for any other purpose than sprinkling or for washing windows.

Where premises are supplied with water through a meter, no fixture will be permitted to be attached to the plumbing outside of same.

For Stables.

Private stables	\$4 00
Each horse, more than one	2 00
Livery stables, each single stall	1 50
Work horses, including car horses, each	1 50
Provided that no stable shall be charged less than	4 00

The above charges include water for washing carriages, but in no case shall hose be used for washing either horses or carriages without an extra charge to be agreed upon.

Neat cattle, each head	1 00
Swine, each	25

For Public Fire Hydrants.

Each	\$30 00
------------	---------

☞ THE ABOVE RATES ARE ALL ANNUAL. ☞

For Sprinkling Carts.

Two-horse cart, per week	\$9 00
One-horse cart, per week	5 00

For Building Purposes.

The charge for water for building purposes shall be at the rate of eight cents per cask of cement or lime of a capacity not exceeding 240 pounds. Larger

barrels will be charged in proportion. The number of barrels of lime or cement required to build any structure shall be determined by results based upon the following estimates, viz.:

One cask of lime for 65 square yards of plastering, or 1,000 laths or 1,000 bricks.

One cask of cement for six square yards of cellar bottom.

For any other purposes special estimates will be made.

No bill will be made for less than fifty cents.

The commissioner reserves the right to require the applicant to set a meter at his own expense and pay for measured water instead of being governed by the foregoing schedule for building purposes.

Water for filling cisterns or tanks \$5 00

For Measured or Estimated Water.

For all water consumed through a single tap during one quarter:

Up to 100,000 cubic feet $1\frac{1}{2}$ mills per cubic foot, 20c. per 1,000 gallons.

From 100,000 to 250,000 ft. $1\frac{1}{4}$ mills per cubic foot, or 15c. per 1,000 gallons.

From 250,000 to 400,000 ft. 9-10 mills per cubic foot, or 12c. per 1,000 gallons.

In excess of 400,000 ft. $\frac{3}{4}$ fills per cubic foot, or 10c. per 1,000 gallons.

Provided, however, that in no case where a meter is used, shall the minimum charge be less than \$8.00, which amount shall be payable annually in advance.

For Hydraulic Elevators.

Per 1,000 gallons, registered by counters \$ 15

When meters are used to register the water for elevators, a discount of 20 per centum will be made from the above rate.

For purposes not named in the above schedule, and for peculiar circumstances special assessments or contracts will be made.

For permanently closing stops and supplying the premises through other stops, a charge of five dollars will be made for each stop permanently closed.

RULES AND REGULATIONS.

(Subject to additions and amendments.)

All applications for the use of water must be made at the office of the Commissioner of Public Works, in the form prescribed, stating fully and truly the various uses to which the water is to be applied.

The city will furnish service-pipe connection from the main pipe to inside the curb line; and the Commissioner of Public Works will in each case determine the size of tap, stop and pipe of such connection.

All work inside the stop (at the curbstone) must be done at the expense of the taker, by a plumber licensed by the Commissioner of Public Works.

The Commissioner reserves the right to decline to connect with plumbing which has not been done by a plumber licensed by him, or which has not been examined and approved by such licensed plumber.

No water pipes, in any building or premises, supplied with water by the City, shall be allowed to receive a supply of water from any other source. No connection of pipes having another supply controlled by

valves or "shut-offs" will be allowed. Such pipes must be entirely disconnected, as there must be no possibility to supply other water to the City mains. (See Resolution of the Board of Health, passed June 29, 1893.)

No street, sidewalk or other public place shall be opened for any purpose, referring to the Water Works, without a special permit from the proper officer; and such permit will be granted only to a licensed plumber, on his written application therefor.

The strength of the pipes used, their protection against freezing, the kind of faucets and other fixtures, and the general arrangement of the work in reference to its security and safety, are to be subject to approval by the proper officer.

Persons taking water must keep their own water pipes, and all fixtures connected therewith, in good repair, and protected from frost at their own expense. They must provide a stop waste-cock, to be properly located inside the building, and have the pipes so arranged that the water can be drawn from them wherever and whenever there is danger of its freezing. Should there be no stop-cock on the premises, a charge of two dollars will be made for closing and opening, when necessary, at the curbstone.

No alterations in pipes or fixtures shall be made, and no additional fixtures put in, without notice to the Commissioner, and a permit having been obtained therefor by a licensed plumber.

No person shall be entitled to damages, nor to have any portion of a payment refunded, for any stoppage of supply occasioned by accident to any portion of the works; nor for stoppage for purposes of additions or repairs; nor for non-use occasioned by absence; and the Commissioner of Public Works shall have the right to shut off water to make repairs or additions of new work.

When water shall be supplied to more than one party, through a single tap, the bill for the whole supply furnished through such tap will be made either to the owner of the estate, or to some one tenant who shall agree to be responsible therefor. In case of non-payment the water may be shut off, notwithstanding one or more parties may have paid the proportion due from him or them. Owners shall be so far responsible for tenants, that new tenants shall not be entitled to a supply until all arrearages on the premises are paid.

No hydrant, hose-bib or hose attachment shall be placed in any yard or area of any premises so situated as to be accessible to persons living in or occupying neighboring premises, unless the owner of the premises first named becomes responsible for and pays the water rent for all persons using water therefrom.

In all occupied premises, every private fountain, water closet, set basin, sink, or other fixture, whether used or not, will be deemed and held as used, and will be charged for so long as such fountain, water closet, set basin, sink, or other fixture, shall remain connected with the water pipes.

No water taker will be allowed to supply water to parties not entitled to its use, except through a meter, or by special permit from the Commissioner of Public Works; and if found doing so without a permit, the supply will be stopped and the water rent already paid forfeited.

Persons who have provided themselves with fixtures for protection against fire, will not be allowed to use water through such fixtures for other purposes, except upon a written permit from the Commissioner of Public Works. Any person violating this provision will be liable to have the supply cut off.

• There shall be no concealment of the purpose for which water is used.

There shall be no unnecessary waste of water. Any person violating this rule shall be liable to have his supply shut off, and the amount paid therefor forfeited.

The Commissioner of Public Works, his agents and assistants, may enter any premises supplied with Pawtuxet water, at all reasonable hours of the day, to wit, between eight o'clock A. M. and six o'clock P. M., to examine the pipes and fixtures, the quantity of water used, and the manner of its use.

METERS.

When a consumer shall prefer to pay the cost of such a meter as shall be approved by the Commissioner of Public Works, together with the cost of putting in and of maintenance, rather than to pay schedule rates, or for the quantity estimated, a meter will be put in.

The Commissioner reserves the right to put in a meter at the cost of the city, in any case, and charge for measured water, instead of being governed by the foregoing schedule.

If a meter gets out of order and fails to register, the consumer will be charged at the average daily consumption, as shown by the meter when in order. Repairs of meters will be made by the Commissioner at the expense of the owners, whenever the same are caused by reason of freezing, abuse or neglect.

When water passes through a meter it may be used for any and all purposes. No service pipes, however, will be allowed to be laid across a street.

All water passing through a meter will be charged for, whether used or wasted.

All meters will be set by an employee of the Commissioner, and shall not be moved or disturbed without permission from the proper officer.

All consumers using meters shall provide a suitable location for the same that shall be readily accessible at all times to the meter inspectors. Failure to comply with this rule will be deemed sufficient cause for shutting off the water.

ACT OF THE GENERAL ASSEMBLY OF THE STATE OF RHODE ISLAND RELATIVE TO INTERFERENCE WITH WATER METERS AND FRAUDULENT USE OF WATER.

CHAPTER 279.

SEC. 48. Every person who shall wilfully or fraudently injure, or shall knowingly suffer to be injured, any meter, pipe or fittings connected with or belonging to any gaslight company, or connected with or belonging to the water works of any corporation in this State, supplying water at a stipulated rate of payment, or shall wilfully tamper or meddle with any other of the appliances or appurtenances connected with or belonging to any such gaslight company, or to the water works of such corporation, in such manner as to cause loss or damage to said company or corporation; or who shall wilfully or fraudently prevent any meter used for registering the quantity of gas or water supplied through the same from duly registering the quantity so passing through the same, or alter the index of any such meter, or in any way hinder or interfere with its proper action or just registration, or shall fraudulently burn the gas of said company, or fraudulently use the water passing through such meter pipe, fittings, or other of the appliances or appurtenances connected with or belonging to said gas company, or to the water works of such corporation, or wilfully waste said gas or water shall be deemed guilty of a misdemeanor, and shall be imprisoned not exceeding thirty days, or be fined not exceeding one hundred dollars.

ec. 49. Every person who, with intent to injure or defraud any gaslight company, or any corporation supplying water in this State, at a stipulated rate of payment, shall make, or cause to be made, any pipe, tube, or other instrument or contrivance, and connect the same, or cause the same to be connected, with any main, service pipe, or other pipe, appliance, or appurtenance, used for or in connection with the works or apparatus employed for conducting or supplying illuminating gas, or water, in such manner as to be calculated to supply such gas or water to any burner, orifice, faucet, or other outlet whatsoever, without

such gas or water passing through a meter provided or used for measuring or registering the quantity thereof so passing through, or without the consent of said company or corporation to such connections aforesaid; or who shall otherwise use any such gas or water with the intent to defraud said company or corporation of payment therefor, shall be deemed guilty of a misdemeanor, and shall be imprisoned not exceeding thirty days, or be fined not exceeding one hundred dollars.

STREET SPRINKLERS AND STREET SPRINKLING.

No person or persons shall be permitted to take water from the fire hydrants, or street sprinklers, to sprinkle any of the streets or portions of the streets of this city, or for any other purpose, without having obtained a permit from the Commissioner of Public Works, which permit shall be good only for the time named therein.

The sprinkling of streets shall be done in such manner as not to become injurious to the health of the public, or to cause the streets to become muddy in consequence of said sprinkling.

Streets must not be sprinkled on damp days, nor in the shade of trees or buildings, when the pavement is moist.

Drivers must shut off the water at crosswalks, and when passing carriages, pedestrians, etc., so as not to wet or spatter them. This rule will apply to meeting people crossing streets on the crosswalks, and carriages standing in front of buildings.

The further employment of drivers who sprinkle until the streets are actually muddy will not be permitted.

The orifices of the tube or sprinkler through which the water passes from the sprinkling cart or wagon to the street must not exceed one-sixteenth of an inch in diameter, or sixty orifices to the running foot of tube or sprinkler. Carts with patent sprinkling attachments shall have them so adjusted that too much water may not run through them and they shall be subject to approval.

All sprinkling carts shall be subject to inspection by an inspector authorized by the Commissioner.

In taking water for street sprinkling purposes, no leakage or waste of water either from street sprinkler, hose, or sprinkling cart, will be tolerated; and all persons using the sprinklers shall leave them properly covered.

All instructions received from any authorized inspector, relative to the sprinkling of streets, shall be fully complied with.

Violations of rules relative to sprinkling streets shall be deemed sufficient reason for refusing further permits.

PAYMENT OF BILLS.

Bills for annual rates will be payable annually, in advance, on the first day of January, at the office of the City Treasurer.

Fractional parts of a year will be calculated to the first day of January next ensuing, and will be payable as soon as the water is let on.

Bills for measured and estimated water will be payable either monthly, quarterly, or annually, according to use.

If bills remain unpaid for twenty days when due January first, or for ten days when due at other periods of the year the water may be shut off without further notice.

The supply of water is liable to be shut off for non-payment of bills, or violation of rules; and when so shut off the sum of two dollars, and the bill, if any, shall be paid before letting it on. This liability shall include all bills for water, although previous bills for a less supply of water through the same stop may have been paid; also for repairs of meter.

No person shall open or interfere with the fire hydrants, hydrants for street sprinklers, valves, or other water works' fixtures of this city without proper authority.

PLUMBERS.

Any plumber wishing to do business in connection with the Providence Water Works is required to procure a license from the Commissioner of Public Works, and at the same time to execute a bond, with one or more securities to be approved by said Commissioner, in the sum of three thousand dollars, conditioned that he shall indemnify and save harmless the City of Providence and the said Commissioner from all suits and actions, of every name or description, brought against the City of Providence, or any officer of said City, for or on account of any injuries or damages received or sustained by any person by or from said licensed plumber, his servants or agents, in doing said work, or by or in consequence of any neglect in guarding the same, or any improper materials used therein, or by or on account of any act or omission of the said plumber or his agents; and said plumber shall faithfully perform the work in all respects, and before the same shall be considered completed, he shall also replace and restore the street pavement and sidewalk over every opening to as good state and condition as he found them, and keep and maintain the same in good order, to the satisfaction of the said Commissioner, for the space of one year thereafter; and shall also comply in all respects with the rules and regulations established, relating to said water works; and also that he will pay all fines imposed upon him for a violation of any rule or

regulation of the Commissioner. All licenses now in force shall expire on the 31st day of December next ensuing, and all licenses issued thereafter shall be for the term ending December 31st next following their issue.

In addition to the authority to introduce and distribute Pawtuxet water, the licensed plumber shall have all the authority of the licensed drain layer to lay private drains and appurtenances in connection with the public sewers, subject to the rules and regulations governing the same.

No licenses will be granted to other than practical plumbers or to those who employ practical plumbers to do their work.

Each licensed plumber shall state his actual place of business, which must be in the City of Providence, together with the name under which the business is done, and shall immediately notify the Commissioner of any change in either thereafter.

All work in a street or other public place must be done in the best manner to protect the public against injury, and to secure good and satisfactory work, and all private water pipes laid in streets shall be subjected to a test by an inspector of the department before the same are covered. The Commissioner may repair work which is unsatisfactory, without notice, and collect the cost from the plumber doing the work.

Tunnelling under the street or sidewalk is prohibited unless authorized by special permit from the Commissioner of Public Works.

The Commissioner and his authorized agents are to have, at all times, facilities for inspecting the plumbing, or other work and fixtures, while under the charge of the plumber.

All plumbing must be completed in a building before attachment is made to the service pipe, unless by special permit.

Where service pipes have been laid to or inside the curb line, or continued to the cellar foundation of building, for building purposes, a permit will be necessary for any additions thereto.

Plumbers shall make full written returns of the ordinary and special uses to which the water is designed to be applied under permits granted, whether of new work or alterations or additions, with a full description of all apparatus and arrangements for using the water in every case, the return to be made within forty-eight hours after attachment with the several pipes, or completion of alterations or additions. In case of the suspension of any part of the contemplated work for any

cause, it shall be the duty of the plumber to make a return of the work as far as completed. No plumber or other unauthorized person will be allowed to turn on water.

No person unless specially authorized by the Commissioner, will be permitted to make any connection with the main or distributing pipes.

No licensed plumber will be permitted to take out a permit for work to be done by a person not in the employ of such plumber.

Permission is required to be obtained by licensed plumbers for all work to be done.

The Commissioner shall have the right to impose a fine, not exceeding in any one case the sum of ten dollars, for violation of rules and regulations by licensed plumbers.

Violations of rules and regulations, or of the conditions under which a license is taken, will subject the plumber to forfeiture of his license, or to a fine, or both, as well as to the penalties of his bond.

Co. extending southeasterly through the center of Branch avenue to the center of the Moshassuck river; southerly through the center of the Moshassuck river to Pettis street; easterly through the center of Pettis street to North Main street; southerly through the center of North Main street to Stevens street; westerly through the center of Stevens street to Randall Square; northwesterly through the center of Randall Square to Charles street; northwesterly through the center of Charles street to the easterly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co., thence north-easterly along the line of said railroad to Branch avenue, shall constitute the second voting district.

3. All that part of said ward beginning at a point on the Providence and Pawtucket boundary line where it is crossed by the Moshassuck river, extending easterly on said line to the city line in the Seekonk river; southerly on said line to a point on the line between Swan Point Cemetery and the property of the Butler Hospital extended; westerly on the line between Swan Point Cemetery and the property of the Butler Hospital to Rochambeau avenue; southwesterly and westerly through the center of Rochambeau avenue to North Main street; southerly through the center of North Main street to Pettis street; westerly through the center of Pettis street to the Moshassuck river; thence northerly through said river to the Providence and Pawtucket boundary line, shall constitute the third voting district.

4. All that part of said ward beginning at the intersection of North Main street and Rochambeau avenue, extending easterly through the center of Rochambeau avenue to Hope street; southerly through the center of Hope street to Mount Hope avenue; westerly through the center of Mount Hope avenue to Ivy street; northeasterly through the center of Ivy street to Locust street; northwesterly through the center of Locust street to Camp street; northeasterly through the center of Camp street to Duncan avenue; westerly through the center of Duncan avenue to North Main street; northerly through the center of North Main street to Rochambeau avenue, shall constitute the fourth voting district.

5. All that part of said ward beginning at the intersection of Hope street and Rochambeau avenue extending easterly through the center of Rochambeau avenue to Cole avenue; southerly through the center of Cole avenue to Sessions street; westerly through the center of Sessions street to Elmgrove avenue; southerly through the center of Elmgrove avenue to Lloyd avenue; southwesterly through the center of Lloyd avenue to Hope street, thence northerly through the center of Hope street to Rochambeau avenue, shall constitute the fifth voting district.

6. All that part of said ward beginning at the intersection of Rochambeau and Cole avenues extending northeasterly through the center of Rochambeau avenue to the line between Swan Point Cemetery and the property of the Butler Hospital and said line extended easterly to the center of the Seekonk river; southerly on said line to the line of Angell street; westerly in the line of and through the center of Angell street to Hope street; northwesterly through the center of Hope street to Lloyd avenue; northwesterly through the center of Lloyd avenue to Elmgrove avenue; northerly through the center of Elmgrove avenue to Sessions street, easterly through the center of Sessions street to Cole avenue; northerly through the center of Cole avenue to Rochambeau avenue shall constitute the sixth voting district.

THIRD WARD.

1. All that part of said ward beginning at a point on Charles street at the easterly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co., extending southeasterly through the center of Charles street to Randall Square; southeasterly through the center of Randall Square to Stevens street; easterly through the center of Stevens street to North Main street; southerly through the center of North Main street to Benefit street; southerly through the center of Benefit street to Star street; westerly through the center of Star street to North Main street; southerly through the center of North Main street to Smith street; westerly through the center of Smith street to the easterly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; northerly on the easterly line of said railroad property to Charles street shall constitute the first voting district.

2. All that part of said ward beginning at a point at the intersection of Admiral street and Fillmore street; extending easterly through the center of Admiral street to Charles street; southeasterly through the center of Charles street to the westerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; southerly on the westerly line of said railroad property to Orms street; westerly through the center of Orms street to Candace street; northerly through the center of Candace street to Douglas avenue; southeasterly through the center of Douglas avenue to Fillmore street; northeasterly through the center of Fillmore street to Admiral street shall constitute the second voting district.

3. All that part of said ward beginning at the junction of Douglas avenue and Admiral street extending southeasterly through the center of Admiral street to Hawkins street; northeasterly through the center of Hawkins street to Charles street; southerly through the center of Charles street to Admiral street; westerly through the center of Admiral street to Fillmore street; southwesterly through the center of Fillmore street to Douglas avenue; northwesterly through the center of Douglas avenue to Admiral street shall constitute the third voting district.

4. All that part of said ward beginning at a point on the Providence and North Providence boundary line where it is crossed by Admiral street, extending southeasterly through the center of Admiral street to Douglas avenue; southeasterly through the center of Douglas avenue to Candace street; southerly through the center of Candace street to Chalkstone avenue; westerly through the center of Chalkstone avenue to Smith street; northwesterly through the center of Smith street to the Providence and North Providence boundary line; thence on said line to Admiral street shall constitute the fourth voting district.

POLICE COMMISSIONERS

5. All that part of said ward beginning at a point on the Providence and North Providence boundary line where it is crossed by Admiral street, extending northeasterly and easterly on said line to Charles street; southerly through the center of Charles street to Hawkins street; southwesterly through the center of Hawkins street to Admiral street; northwesterly through the center of Admiral street to the Providence and North Providence boundary line shall constitute the fifth voting district.

6. All that part of said ward beginning at a point on the Providence and North Providence boundary line where it is crossed by Charles street, extending in a general easterly direction on said line, and the Providence and Pawtucket boundary line to the Moshassuck river; southerly through the center of the Moshassuck river to Branch avenue; northwesterly through the center of Branch avenue to the westerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; southerly along said line to Charles street; northerly through the center of Charles street to the Providence and North Providence boundary line shall constitute the sixth voting district.

7. All that part of said ward beginning at the junction of Smith street and Chalkstone avenue extending northeasterly through the center of Chalkstone avenue to Candace street; southerly through the center of Candace street to Orms street, easterly through the center of Orms street to the easterly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co., southerly on said line to Smith street; northwesterly through the center of Smith street to Chalkstone avenue shall constitute the seventh voting district.

FOURTH WARD

1. All that part of said ward beginning at the intersection of Francis street and Smith street extending easterly through the center of Smith street to North Main street; northwesterly through the center of North Main street to Star street; easterly through the center of Star street to Benefit street; southeasterly through the center of Benefit street to Waterman street; southwesterly through the center of Waterman street to North Main street; northwesterly through the center of North Main street to Friend street; southwesterly through the center of Friend street to Canal street; thence in a straight line to the northeasterly corner of Exchange bridge; thence in a straight line to a point in the center of the northerly line of Burnside bridge; thence southeasterly through the center of Providence river to a point on the line of Hay street extended; northwesterly in the line of and through the center of Hay street to Friendship street; southwesterly through the center of Friendship street to Richmond street; southeasterly through the center of Richmond street to Ship street; westerly through

the center of Ship street to Elbow street; southwesterly through the center of Elbow street to Chestnut street; northwesterly through the center of Chestnut street to Weybosset street; westerly through the center of Weybosset street to Burrill street; northwesterly through the center of Burrill street to Westminster street; southwesterly through the center of Westminster street to Walnut street; northwesterly through the center of walnut street to Washington street; northeasterly through the center of Washington street to Empire street; northwesterly through the center of Empire street to Fountain street; northeasterly through the center of Fountain street to Aborn street; northwesterly through the center of Aborn street to Sabin street; northeasterly through the center of Sabin street to Mathewson street; northwesterly through the center of Mathewson street and the line of Mathewson street to the southerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; westerly on said line to Acorn street; northwesterly through the center of Acorn street to the Woonasquatuoket river; easterly through the center of the Woonasquatuoket river to Gaspee street; northeasterly through the center of Gaspee street to Francis street; northerly through the center of Francis street to Smith street shall constitute the first voting district.

2. All that part of said ward beginning at the junction of Hospital street and Elm street extending northwesterly through the center of Hospital street to Elbow street; northeasterly through the center of Elbow street to Ship street; easterly through the center of Ship street to Richmond street; northwesterly through the center of Richmond street to Friendship street; northeasterly through the center of Friendship street to Hay street; northeasterly through the center of Hay street and Hay street extended to the center of Providence river; southeasterly on the center of Providence river and Providence harbor to the line of Elm street; thence in a southwesterly direction through the center of Elm street to Hospital street shall constitute the second voting district.

3. All that part of said ward beginning at the intersection of Weybosset street and Chestnut street extending southeasterly through the center of Chestnut street to Elbow street; southwesterly through the center of Elbow street to Hospital street; southeasterly through the center of Hospital street to Elm street; southwesterly through the center of Elm street to Plain street; southeasterly through the center of Plain street to Point street; southwesterly through the center of Point street to Friendship street; southwesterly through the center of Friendship street to Lockwood street; northwesterly through the center of Lockwood street to Broad street; thence northeasterly through the center of Broad street to Chestnut street shall constitute the third voting district.

4. All that part of said ward beginning at a point at the intersection of Federal and Dean streets; extending easterly through the center of Federal street to Cope street; easterly through the center of Cope street to Jackson street; southeasterly through the center of Jackson street to Washington street; northeasterly through the center of Washington street to Walnut street; southeasterly through the center of Walnut street to Westminster street; northeasterly through the center of Westminster street to Burrill street; southeasterly through the center of Burrill street to Weybosset street; easterly through the center of Weybosset street to Broad street; southwesterly through the center of Broad street to Pearl street; northeasterly through the center of Pearl street to Cranston street; northeasterly through the center of Cranston street to Westminster street; northeasterly through the center of Westminster street to Dean street; northwesterly through the center of Dean street to Federal street shall constitute the fourth voting district.

5. All that part of said ward beginning at a point on the southerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co. where it is crossed by Dean street, extending easterly on the said line to a point in the line of Mathewson street; southeasterly in the line of and through the center of Mathewson street to Sabin street; southwesterly through the center of Sabin street to Aborn street, southeasterly through the center of Aborn street to Fountain street; southwesterly through the center of Fountain street to Empire street; southeasterly through the center of Empire street to Washington street; southwesterly through the center of Washington street to Jackson street; northwesterly through the center of Jackson street to Cope street; westerly through the center of Cope street to Federal street; westerly through the center of Federal street to Dean street, northwesterly through the center of Dean street to the southerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co. shall constitute the fifth voting district.

6. All of that part of said ward beginning at the point of intersection of Ayrault street and Chalkstone avenue; extending easterly through the center of Chalkstone avenue to Smith street; southeasterly through the center of Smith street to Francis street; southerly through the center of Francis street to Gaspee street; southwesterly through the center of Gaspee street to the center of the Woonasquatucket river; westerly through the center of the Woonasquatucket river to Rathbone street; northwesterly through the center of Rathbone street to Valley street; northeasterly through the center of Valley street to Ayrault street; northerly through the center of Ayrault street to Chalkstone avenue shall constitute the sixth voting district.

FIFTH WARD.

1. All of that part of said ward beginning at a point in the center of Plain street opposite Elm street; extending northeasterly through the center of Elm street to the center of Providence river; southeasterly on the center of Providence river and Providence harbor to the line of Public street; southwesterly in the line of and through the center of Public street to Plain street; northerly through the center of plain street to Bishop street; northeasterly through the center of Bishop street to Culver street; northerly through the center of Culver street to Dudley street; easterly through the center of Dudley street to Eddy street; northeasterly through the center of Eddy street to Hospital street; northwesterly through the center of Hospital street to Lockwood street; northwesterly through the center of Lockwood street to Plain street; northerly through the center of Plain street to Elm street shall constitute the first voting district.

2. All that part of said ward beginning at the junction of Prairie avenue and Dudley street, extending easterly through the center of Dudley street to Culver street; southerly through the center of Culver street to Bishop street; southwesterly through the center of Bishop street to Plain street; southerly through the center of Plain street to Public street; southwesterly through the center of Public street to Prairie avenue; northerly through the center of Prairie avenue to Dudley street shall constitute the second voting district.

3. All that part of said ward beginning at a point in the center of Elmwood avenue opposite Plenty street extending easterly through the center of Plenty street to Broad street; southeasterly through the center of Broad street to Willard avenue; northeasterly through the center of Willard avenue to Prairie avenue; southeasterly through the center of Prairie avenue to Public street; southwesterly through the center of Public street to Burnett street; northwesterly through the center of Burnett street to Elmwood avenue; northerly through the center of Elmwood avenue to Plenty street shall constitute the third voting district.

4. All that part of said ward beginning at a point at the intersection of Friendship street and Lockwood street, extending northeasterly through the center of Friendship street to Point street; easterly through the center of Point street to Plain street; southerly through the center of Plain street to Lockwood street; southeasterly through the center of Lockwood street to Hospital street; southeasterly through the center of Hospital street to Eddy street; southwesterly through the center of Eddy street to Dudley street; westerly through the center of Dudley street to West Clifford street; northeasterly through the center of West Clifford street to Lockwood street; northwesterly through the center of Lockwood street to Friendship street shall constitute the fourth voting district.

5. All that part of said ward beginning at a point in the center of Elmwood avenue opposite Plenty street extending northeasterly through the center of Elmwood avenue to Broad street; northeasterly through the center of Broad street to Lockwood street; southeasterly through the center of Lockwood street to West Clifford street; southwesterly through the center of West Clifford street to Dudley street; southeasterly through the center of Dudley street to Prairie avenue; southerly through the center of Prairie avenue to Willard avenue; westerly through the center of Willard avenue to Broad street; northwesterly through the center of Broad street to Plenty street; westerly through the center of Plenty street to Elmwood avenue shall constitute the fifth voting district.

SIXTH WARD.

1. All that part of said ward beginning at a point in the center of Prairie avenue at the intersection of Public street, extending northeasterly through the center of Public street to the center of Providence river and Providence harbor, thence in a southerly direction to the line of Oxford street; southwestly in the line of and through the center of Oxford street to Eddy street; northerly through the center of Eddy street to Sayles street; westerly through the center of Sayles street to Burnside street; northerly through the center of Burnside street to Reynolds avenue; westerly through the center of Reynolds avenue to Prairie avenue; northerly through the center of Prairie avenue to Public street shall constitute the first voting district.

2. All that part of said ward beginning at a point in the center of Broad street opposite Cass street, extending northwestly through the center of Broad street to Thurbers avenue; easterly through the center of Thurbers avenue to Burnside street; northerly through the center of Burnside street to Sayles street; easterly through the center of Sayles street to Eddy street; southerly through the center of Eddy street to Oxford street; northeasterly through the center of Oxford street and the line of Oxford street to the city line in Providence harbor; thence following said line southerly to Ernest street extended; westerly through the line of Ernest street extended and through the center of Ernest street to Cass street; westerly through the center of Cass street to Broad street shall constitute the second voting district.

3. All that part of said ward beginning at a point in the center of Broad street at the intersection of Cass street; extending easterly through the center of Cass street to Ernest street; easterly through the center of Ernest street and the line of Ernest street to the city line in Providence harbor; thence following said line around Starve Goat Island and westerly; southerly; and westerly to its intersection with Elm Brook at Park avenue; thence due north through

Roger Williams Park to the northerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; northeasterly on said line to Broad street; southeasterly through the center of Broad street to Cass street shall constitute the third voting district.

4. All that part of said ward beginning at a point on Potter avenue, opposite Elmwood avenue, extending northeasterly through the center of Elmwood avenue to Public street; easterly through the center of Public street to Broad street; southeasterly through the center of Broad street to Gallatin street, westerly through the center of Gallatin street to Melrose street; northwesterly through the center of Melrose street to Potter avenue; northwesterly through the center of Potter avenue to Elmwood avenue shall constitute the fourth voting district.

5. All that part of said ward beginning at a point in the center of Elmwood avenue opposite Potter avenue, extending southeasterly through the center of Potter avenue to Melrose street; southeasterly through the center of Melrose street to Gallatin street; southwesterly through the center of Gallatin street and in the line of Gallatin street to the western line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; northwesterly on said line to Carter street extended; easterly through the center of Carter street extended, and Carter street to Elmwood avenue; northerly through the center of Elmwood avenue to Potter avenue shall constitute the fifth voting district.

6. All that part of said ward beginning at a point in the center of Broad street opposite Public street, extending easterly through the center of Public street to Prairie avenue; southerly through the center of Prairie avenue to Reynolds avenue; easterly through the center of Reynolds avenue to Burnside street; southerly through the center of Burnside street to Thurbers avenue; westerly through the center of Thurbers avenue to Broad street; northwesterly through the center of Broad street to Public street shall constitute the sixth voting district.

7. All that part of said ward beginning at a point in the center of Melrose street opposite Gallatin street, extending easterly through the center of Gallatin street to Broad street; southeasterly through the center of Broad street to the northerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; southwesterly on said line to a line running due north and south through Roger Williams Park to a point on the city line where it is crossed by Elm Brook; thence by said north and south line to said point in the Cranston-Providence boundary line; northwesterly; northerly; and westerly on said boundary line to the westerly line of the railroad property operated by the N. Y., N. H. & H. I. R. Co.; thence in a general northerly direction on said railroad line to a point in the line of center of Gallatin street shall constitute the seventh voting district.

SEVENTH WARD.

1. All that part of said ward bounded by a line beginning at a point at the intersection of Cranston street and Harrison street, extending northeasterly through the center of Cranston street to Pearl street; southeasterly through the center of Pearl street to Broad street; southwesterly through the center of Broad street to Elmwood avenue; southwesterly through the center of Elmwood avenue to Wilson street; westerly through the center of Wilson street to Harrison street; northerly through the center of Harrison street to the place of beginning, shall constitute the first voting district.

2. All that part of said ward beginning at a point at the intersection of Willow street and Messer street, extending easterly through the center of Willow street to Sycamore street; northerly through the center of Sycamore street to Westminster street; easterly through the center of Westminster street to Dexter street; southeasterly through the center of Dexter street to Division street; northeasterly through the center of Division street to Bridgham street; southeasterly through the center of Bridgham street to Cranston street; southwesterly through the center of Cranston street to Messer street; northwesterly through the center of Messer street to Willow street shall constitute the second voting district.

3. All that part of said ward beginning at a point in the center of Dexter street, opposite Westfield street, extending easterly through the center of Westfield street to Elmwood avenue; southerly through the center of Elmwood avenue to Burnett street; southeasterly through the center of Burnett street to Public street; southwesterly through the center of Public street to Elmwood avenue; southwesterly through the center of Elmwood avenue to Potter avenue; northwesterly through the center of Potter avenue to Dexter street; northerly through the center of Dexter street to Westfield street shall constitute the third voting district.

4. All that part of said ward beginning at a point in the center of Cranston street, opposite Hanover street, extending southeasterly through the center of Hanover street to Dexter street; southwesterly through the center of Dexter street to Potter avenue; northwesterly through the center of Potter avenue to Cranston street; northeasterly through the center of Cranston street to Hanover street shall constitute the fourth voting district.

5. All that part of said ward beginning at a point in the center of Cranston street, opposite Potter avenue, extending southeasterly through the center of Potter avenue, to Elmwood avenue; southerly through the center of Elmwood avenue to Carter street; westerly through the center of Carter street and Carter street extended, to the westerly line of the property operated by the N. Y., N. H. & H. R. R.

Co.; southeasterly on said line to the Cranston-Providence boundary line; thence northwesterly on said line to Cranston street; northeasterly through the center of Cranston street to Potter avenue shall constitute the fifth voting district.

6. All that part of said ward beginning at a point in the center of Cranston street opposite Hanover street, extending northeasterly through the center of Cranston street to Harrison street; southerly through the center of Harrison street to Wilson street; easterly through the center of Wilson street to Elmwood avenue; southwesterly through the center of Elmwood avenue to Westfield street; westerly through the center of Westfield street to Dexter street; southerly through the center of Dexter street to Hanover street; northwesterly through the center of Hanover street to the place of beginning shall constitute the sixth voting district.

EIGHTH WARD.

1. All that part of said ward beginning at a point in the center of the Woonasquatucket river, opposite the westerly line of the Dyerville Manufacturing Company's plat, recorded in the Recorder's office, Providence, on plat card 601; extending northeasterly on said line to Manton avenue; easterly through the center of Manton avenue to Atwells avenue; easterly through the center of Atwells avenue to Erastus street; southerly through the center of Erastus street to Manton avenue; southeasterly through the center of Manton avenue to Olneyville Square; southwesterly through Olneyville Square to Plainfield street; southwesterly and westerly through the center of Plainfield street to Webster avenue; northerly through the center of Webster avenue to Laban street; westerly through the center of Laban street to Laurel Hill avenue; northerly through the center of Laurel Hill avenue to Hartford avenue; westerly through the center of Hartford avenue to the city line; thence northwesterly and easterly by said line to the Woonasquatucket river shall constitute the first voting district.

2. All that part of said ward beginning at a point in the center of Pocasset avenue, extending on the westerly line of ward room lot at junction of Pocasset avenue and Plainfield street; through the center of Pocasset avenue to a point 60 feet northerly, an imaginary line from said point to the junction of Pocasset avenue and Plainfield street; northeasterly through the center of Plainfield street to Atwood street; southeasterly through the center of Atwood street to McDonough street; easterly through the center of McDonough street, crossing the old Providence and Springfield railroad tracks to the westerly main line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; southwesterly on said line to the city line; northwesterly and westerly on said line to Terrace avenue; northwesterly through the

center of Terrace avenue to Sterling avenue; northeasterly through the center of Sterling avenue to Webster avenue; northerly through the center of Webster avenue to Pocasset avenue; northeasterly through the center of Pocasset avenue to the westerly line of ward room lot shall constitute the second voting district.

3. All that part of said ward beginning at a point on the westerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co., opposite Wendell street, extending easterly in the line of and through the center of Wendell street to Messer street; southeasterly through the center of Messer street to Cranston street; southwesterly through the center of Cranston street to the city line; thence northwesterly following said line to the westerly main line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; thence northerly on said line to the line of Wendell street shall constitute the third voting district.

4. All that part of said ward beginning at a point on Hartford avenue at the city line, extending easterly through the center of Hartford avenue to Laurel Hill avenue; southerly through the center of Laurel Hill avenue to Laban street; easterly through the center of Laban street to Webster avenue; southerly through the center of Webster avenue to Plainfield street; westerly through the center of Plainfield street to Lawrence street; southeasterly through the center of Lawrence street to Bend street; southwesterly through the center of Bend street to Barrows street; southeasterly through the center of Barrows street to Pocasset avenue; southwesterly through the center of Pocasset avenue to the city line; thence westerly and northwesterly on said line to Hartford avenue shall constitute the fourth voting district.

5. All that part of said ward beginning at a point on the city line in the center of Terrace avenue, extending northwesterly through the center of Terrace avenue to Sterling avenue; easterly through the center of Sterling avenue to Webster avenue; northerly through the center of Webster avenue to Pocasset avenue; northeasterly through the center of Pocasset avenue to the westerly line of ward room lot at junction of Pocasset avenue and Plainfield street; from Pocasset avenue to a point sixty feet northerly, an imaginary line from said point to the junction of Pocasset avenue and Plainfield street; westerly through the center of Plainfield street to Lawrence street; southeasterly through the center of Lawrence street to Bend street; southwesterly through the center of Bend street to Barrows street; southeasterly through the center of Barrows street to Pocasset avenue; southwesterly through the center of Pocasset avenue to the city line; easterly on said line to Terrace avenue shall constitute the fifth voting district.

6. All that part of said ward beginning at a point in the center of Plainfield street, opposite Atwood street, extending northeasterly

through the center of Plainfield street to Olneyville Square; easterly through the center of Olneyville Square to Westminster street; easterly through the center of Westminster street to Broadway; north-easterly through the center of Broadway to Bainbridge avenue; south-erly through the center of Bainbridge avenue to Westminster street; easterly through the center of Westminster street to Sycamore street; southerly through the center of Sycamore street to Willow street; westerly through the center of Willow street to Messer street; south-easterly through the center of Messer street to Wendell street; west-erly through the center of Wendell street and in the line of Wendell to the westerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co.; northerly on said line to McDonough street; westerly through the center of McDonough street to Atwood street; northwesterly through the center of Atwood street to Plainfield street shall constitute the sixth voting district.

NINTH WARD.

1. All that part of said ward beginning at a point on Broadway at Knight street extending northeasterly through the center of Broadway to Sutton street; northerly through the center of Sutton street to Federal street; easterly through the center of Federal street to Dean street; southeasterly through the center of Dean street to Westminster street; southwesterly through the center of Westminster street to Cranston street; southwesterly through the center of Cranston street to Knight street; northwesterly through the center of Knight street to Broadway shall constitute the first voting district.

2. All that part of said ward beginning at a point on Broadway opposite Bainbridge avenue, extending northeasterly through the center of Broadway to Knight street; southeasterly through the center of Knight street to Cranston street; southwesterly through the center of Cranston street to Bridgham street; northwesterly through the center of Bridgham street to Division street; southwesterly through the center of Division street to Dexter street; northerly through the center of Dexter street to Westminster street; westerly through the center of Westminster street to Bainbridge avenue; northerly through the center of Bainbridge avenue to Broadway shall constitute the second voting district.

3. All that part of said ward beginning at a point in the center of the Woonasquatucket river, where it is crossed by Atwells avenue, extending northeasterly through the center of said river to Acorn street; southerly through the center of Acorn street to West Exchange street; westerly through the center of West Exchange street to Murphy street; southerly through the center of Murphy street to Atwells avenue; crossing Atwells avenue to the northwesterly corner of the

fire station located at the corner of Atwells avenue and America street; following the westerly and southerly sides of said fire station to America street; southerly through the center of America street to Federal street; southwesterly through the center of Federal street to Sutton street; southerly through the center of Sutton street to Broadway; southwesterly through the center of Broadway to Almy street; northerly through the center of Almy street to Gesler street; easterly through the center of Gesler street to Decatur street; northerly through the center of Decatur street to Swiss street; easterly through the center of Swiss street to Knight street; northwesterly through the center of Knight street to Atwells avenue; westerly through the center of Atwells avenue to the Woonasquatucket river shall constitute the third voting district.

4. All that part of said ward beginning at a point on Broadway at the westerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co., extending northeasterly on the said line to Atwells avenue; easterly through the center of Atwells avenue to Knight street; southwesterly through the center of Knight street to Swiss street; southwesterly through the center of Swiss street to Decatur street; southeasterly through the center of Decatur street to Gesler street; southwesterly through the center of Gesler street to Almy street; southeasterly through the center of Almy street to Broadway; southwesterly through the center of Broadway to the westerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co. shall constitute the fourth voting district.

5. All that part of said ward beginning at a point on Acorn street; opposite the railroad property operated by the N. Y., N. H. & H. R. R. Co., extending easterly on said line to the center of Dean street extended; southeasterly through the center of Dean street extended and Dean street to Federal street; westerly through the center of Federal street to America street; northwesterly through the center of America street to the southerly line of the fire station located at the corner of Atwells avenue and America street; following the southerly and westerly sides of said fire station to Atwells avenue; thence northerly through the center of Murphy street to West Exchange street; northeasterly through the center of West Exchange street to Acorn street; northerly through the center of Acorn street to the northerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co., shall constitute the fifth voting district.

6. All that part of said ward beginning at a point in the center of Atwells avenue and the center of the Woonasquatucket river, extending easterly through the center of Atwells avenue to the westerly line of the railroad property operated by the N. Y., N. H. & H. R. R. Co., southwesterly on said line to Broadway; southwesterly through the

center of Broadway to Westminster street; westerly through the center of Westminster street to Olneyville Square; westerly through the center of Olneyville Square to Manton avenue; northwesterly through the center of Manton avenue to the center of the Woonasquatucket river; thence in a general northeasterly direction through the center of said river to the center of Atwells avenue shall constitute the sixth voting district

TENTH WARD.

1. All that part of said ward beginning at a point in the center of the Woonasquatucket river and Manton avenue, extending northwesterly through the center of Manton avenue to Julian street; northeasterly through the center of Julian street to Appleton street; southeasterly through the center of Appleton street to Bowdoin street; northerly through the center of Bowdoin street to Atwells avenue; westerly through the center of Atwells avenue to Academy avenue; northerly through the center of Academy avenue to Wisdom avenue; easterly through the center of Wisdom avenue to Alton street; northerly through the center of Alton street to Regent avenue; easterly through the center of Regent avenue to Harold street; southerly through the center of Harold street to Valley street; northeasterly through the center of Valley street to Eagle street; southeasterly through the center of Eagle street to the center of Woonasquatucket river; southwesterly through the center of the Woonasquatucket river to Manton avenue shall constitute the first voting district.

2. All that part of said ward beginning at a point in the center of Valley street opposite Harold street, extending northerly through the center of Harold street to Chalkstone avenue; easterly through the center of Chalkstone avenue to Ayrault street; southerly through the center of Ayrault street to Valley street; southwesterly through the center of Valley street to Rathbone street; southeasterly through the center of Rathbone street to the Woonasquatucket river; southwesterly through the center of the Woonasquatucket river to Eagle street; northwesterly through the center of Eagle street to Valley street; southwesterly through the center of Valley street to Harold street shall constitute the second voting district.

3. All that part of said ward bounded by a line beginning at a point in the center of Manton avenue bridge over the Woonasquatucket river, extending easterly through the center of Manton avenue to Chalkstone avenue; easterly through the center of Chalkstone avenue to Mount Pleasant avenue; southerly through the center of Mount Pleasant avenue to Hendrick street; easterly through the center of Hendrick street to Academy avenue; southerly through the center of Academy avenue to Atwells avenue; westerly through the center of Atwells avenue to

Steuben street; southerly through the center of Steuben street to Amherst street; westerly through the center of Amherst street to Erastus street; northerly through the center of Erastus street to Atwells avenue; westerly through the center of Atwells avenue to Manton avenue; westerly through the center of Manton avenue to the westerly line of the Dyerville Manufacturing Company's plat, recorded in the Recorder's office, in Providence, on plat card 601; southwesterly on said line to the center of the Woonasquatucket river; northwesterly through the center of the said river to the place of beginning shall constitute the third voting district.

4. All that part of said ward beginning at a point in the center of Smith street and Chalkstone avenue, extending westerly through the center of Chalkstone avenue to Harold street; southerly through the center of Harold street to Regent avenue; westerly through the center of Regent avenue to Alton street; southerly through the center of Alton street to Wisdom avenue; westerly through the center of Wisdom avenue to Academy avenue; southerly through the center of Academy avenue to Hendrick street; westerly through the center of Hendrick street to Mount Pleasant avenue; northerly through the center of Mount Pleasant avenue to Chalkstone avenue; easterly through the center of Chalkstone avenue to Academy avenue; northerly through the center of Academy avenue to Smith street; southeasterly through the center of Smith street to the center of Chalkstone avenue shall constitute the fourth voting district.

5. All that part of said ward beginning at a point on the Providence and North Providence boundary line where it is crossed by Smith street, extending southeasterly through the center of Smith street to Academy avenue; southerly through the center of Academy avenue to Chalkstone avenue; westerly through the center of Chalkstone avenue to Manton avenue; westerly through the center of Manton avenue to the Providence and North Providence boundary line; northeasterly along said line to Smith street shall constitute the fifth voting district.

6. All that part of said ward bounded by a line beginning at a point in the center of Atwells avenue at Academy avenue; easterly through the center of Atwells avenue to Bowdoin street; southerly through the center of Bowdoin street to Appleton street; northwesterly through the center of Appleton street to Julian street; southwesterly through the center of Julian street to Manton avenue; northwesterly through the center of Manton avenue to Amherst street; easterly through the center of Amherst street to Steuben street; northerly through the center of Steuben street to Atwells avenue; easterly through the center of Atwells avenue to the place of beginning shall constitute the sixth voting district.

ANNEXATION.

Portion of town of Cranston annexed to city in 1868, now a portion of the sixth and seventh ward. (Formerly the ninth ward.)

Portion of town of North Providence annexed to city in 1874. (Formerly tenth ward.)

Portion of town of Johnston annexed to city June 1, 1898, now a portion of eighth ward. (Formerly third district of eighth ward.)

Land taken from town of Cranston and added to Roger Williams Park in 1887. See Act of General Assembly, January 5, 1886; also about three-quarters of a square mile taken from said town and added to said park in 1892, see Public Laws, 1892.

Area of the city is 18 29-100 square miles.

*United States Census.

†City Census.

‡State Census.

WHO CAN VOTE IN THE CITY OF PROVIDENCE.

The two following classes of persons have, by the Constitution, the first as registered and the second as unregistered voters, a right to vote in the election of all civic officers and on all questions in all legally organized ward or district meetings:

First. Every male citizen of the United States, of the age of twenty-one years who has had his residence and home in this State for two years; and, in this city six months next preceding the term of his voting, and whose name shall be registered in this city on or before the last day of June next preceding the time of his voting: *Provided*, that no person shall at any time be allowed to vote in the election of the City Council, or upon any proposition to impose a tax or for the expenditure of money in this city, unless he shall within the year next preceding have paid a tax assessed upon his property therein, valued at least at one hundred and thirty-four dollars.

Second. Every male citizen of the United States of the age of twenty-one years, who has had his residence and home in this State for one year, and in this city six months next preceding the time of voting, and who is really and truly possessed in his own right of real estate in this city of the value of one hundred and thirty-four dollars, over and above all incumbrances or which shall rent for seven dollars per annum over and above any rent reserved or the interest of any incumbrances thereon, being an estate in fee-simple, fee-tail, for the life of any person, or an estate in reversion or remainder, which qualifies no other person to vote, the conveyance of which estate, if by deed, shall have been recorded at least ninety days. (See General Laws, 1909, Chapter 6, Section 1.)

A personal property voter must pay his tax as aforesaid *seven days* before any election for members of the City Council in order to qualify him to vote for such officers. (See General Laws, Chapter 7, Section 9.)

THE PERSONAL PROPERTY VOTER is required to register but once during the time that he is continually assessed for personal property.

Real estate, the fee of which was in the wife prior to December 2, 1872, qualifies the husband, provided he married her prior to that date, to vote, whether he have children by her or not. If the property is acquired by the wife subsequent to that date the husband must have issue by her capable of inheriting it, in order to qualify him to vote on her property. (R. I. Reports, Vol. 12, p. 594.)

A foreign born registry voter must once each year file proof of his citizenship with the board of canvassers and registration, either at the time of registration or at least five days before the final canvass meeting prior to any election in order to be entitled to vote at such election. (See General Laws, 1909, Chapter 7, Section 2.)

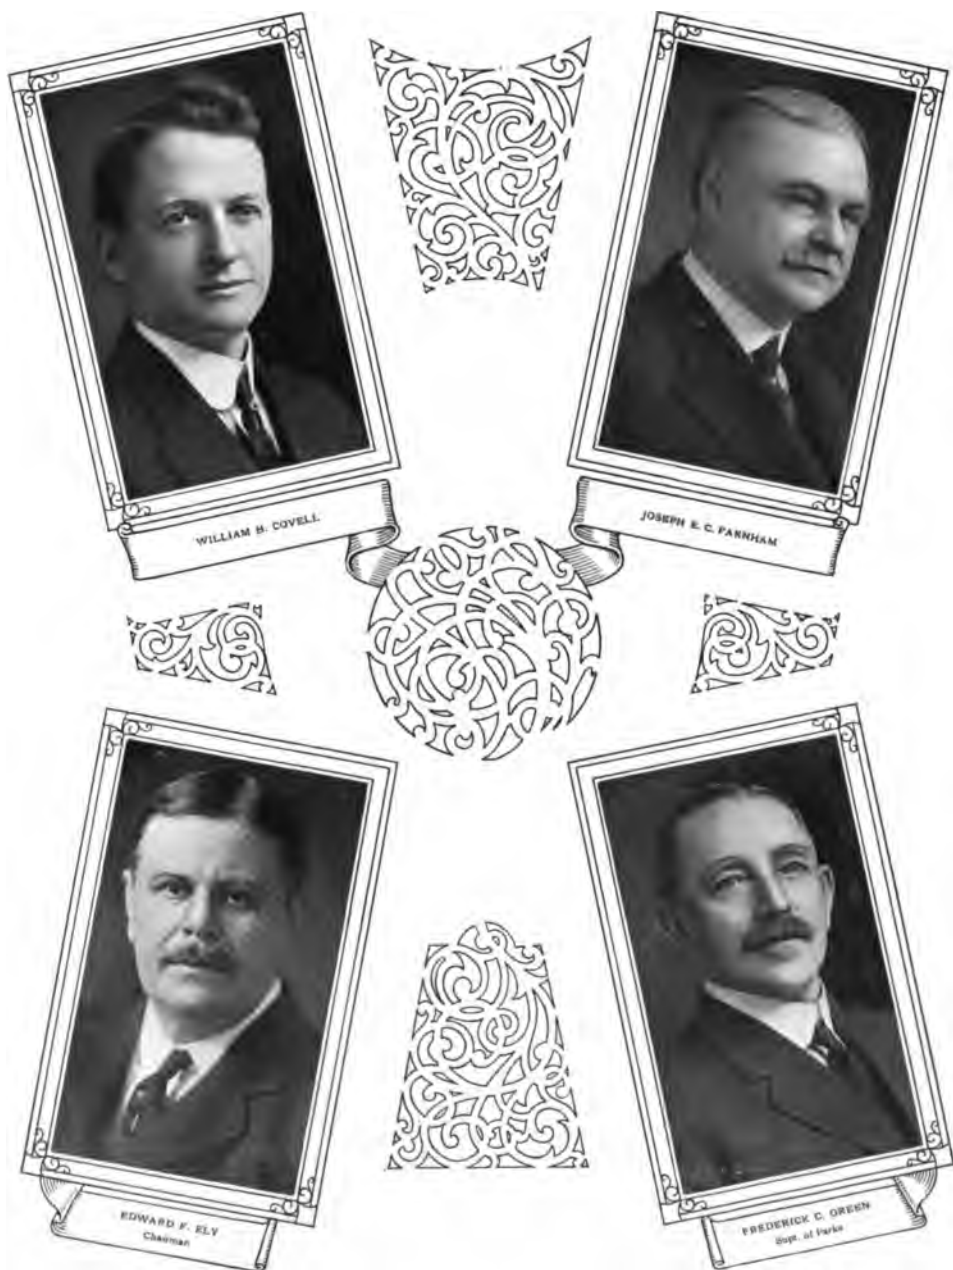

A person not yet a citizen of the United States may register on or before the last day of June in any year, provided he can by naturalization become qualified to vote during the ensuing year, so also in the case of a minor attaining his majority in the ensuing year, and in the case of a person who will have gained a residence during the ensuing year. (R. I. Reports, Vol. 16, p. 661.)

Real estate held in trust does not qualify either the trustee or the person for whom it is held in trust.

"Our opinion is that the Constitution meant to provide for the simple ownership of a vested legal estate held by one in his own right, and for nothing else." (R. I. Reports, Vol. 19, p. 390.)

The name of a person who conveys his real estate is to be removed from the voting list immediately upon such conveyance, unless he has registered in the preceding year.

A person qualified to vote upon a certificate of ownership of real estate situated in another city or town can vote only for Governor, Lieutenant-Governor, Secretary of State, Attorney-General, General Treasurer, Senator and Representatives in the General Assembly, Electors for President and Vice-President, and Representatives in Congress. He cannot vote for any city or town officers whatsoever, at any city or town election. (R. I. Reports, Vol. 19, p. 614.)

CITY OFFICERS
AND
MEMBERS OF THE CITY GOVERNMENT.
1832-1915.

ALPHABETICALLY ARRANGED.

The term of officers elected annually, was for the year ensuing the first Monday in June, until June, 1873, when the term then commencing was extended to January, 1875. Subsequently the term of office was for the year ensuing the first Monday in January, except when otherwise specified. In 1887 and 1900, the ward lines were changed, the aldermen and councilmen elected therefrom to hold office commencing from the first Monday in January. Commencing the municipal year 1913 the term of City officials is for two years.

FACTS ABOUT PROVIDENCE.

(From the Record and Guide, Providence.)

AREA AND POPULATION.

Providence is the second city in New England in size, population and as a financial, shipping and trading centre. The population of the city is 247,682, of whom 33,500 are voters. It is the trading centre for a population of approximately 500,000 people. Area of the city is 18.29 square miles.

INDUSTRIES.

Providence has 1188 manufactories, with a capital of \$130,363,200, employing 51,016 operatives, with an annual production of \$132,350,800. In the value of manufactured products it is the seventeenth city in the United States. Seventy-eight new corporations, with an aggregate capital stock of \$5,017,000, were organized in Providence during 1914. It is the first city in the country in the manufacture of jewelry and silverware, as indicated by the following figures: Number of establishments, 326; capital, \$18,755,539; number of employees, 12,102; annual wages, \$5,236,858; value of material used, \$10,766,840; value of products, \$22,753,610. It is the first city in the country in the manufacture of woolen and worsted goods, these two industries combined employing about 13,200 operatives and having an annual output of \$35,200,00. It has the largest mechanical tool factory, file factory, engine factory, screw factory and silverware factory in the world.

TRANSPORTATION.

Providence is the largest city between Boston and New York and has the best natural harbor in New England. The average number of steam passenger trains in and out of city daily is 300. It has direct communication by water with New York, Philadelphia, Baltimore, Newport News, Norfolk and Mediterranean ports. There are also steamer lines plying between Providence and the following ports: Block Island, Newport, Bristol, Sakonnet, Tiverton and Fall River. The street railway system consists of 344.93 miles of trackage in Providence and suburban towns, and about 93,126,679 passengers are carried annually. Value of imports for year, \$2,292,866; amount of duty collected, \$581,543.95. During the year 1914, 10,440 vessels arrived at the port of Providence. Importations into Providence for year 1914, all in tons: Coal, 2,196,735; lumber, 30,563; laths, 925; shingles, 400;

brick, 6913; stone, 36,988; sand, 16, 164; pig iron, 6023; chemicals, 14,164; iron pipe, 3006; fire brick, 1709; plaster, 1707; logwood, 1410; salt, 3867; asphalt, 1710; fertilizer, 355; spiling, 500; paper, 363; bone black, 300; wood paving blocks, 310; ceiling, 547; sulphur, 250; clay pipe, 215; scrap iron, 935; copper, 4150; gravel, 150; oysters, 93,295; oil, 146,492; foreign merchandise received at State pier, 499; general merchandise by steamers, 545,334. Total tonnage, 3,025,645. Number of passenger vessels arrived from foreign ports, 43; number of passengers brought in, 9840.

FINANCIAL.

Providence has eight national banks, three State banks, four savings banks, four trust companies, one co-operative bank and one savings and loan association. Combined capital of banks and trust companies, \$12,080,475. Bank clearings for 1914, \$401,496,300. Total net indebtedness of city, \$21,914,014, including water debt of \$3,154,000. Sinking funds, \$8,350,936. It is one of the richest cities per capita in the United States and its credit is high in financial circles. Estimated income for year 1915: Tax, \$4,716,821; all other sources, \$1,293,160; total, \$6,009,981.

VALUATION AND TAX RATE.

Assessed valuation: Land, \$96,387,820; building and improvements, \$115,641,020; tangible personal, \$55,169,460; intangible personal, \$77,-004,120. Total valuation, \$344,202,420. Tax rate, \$16.50 per \$1,000 on real estate and tangible personal property, and \$4 per \$1,000 on intangible personal property.

REAL ESTATE AND BUILDING.

The number of real estate sales recorded during the year 1914 was 3570 and the amount of mortgage loans for the same period aggregated \$5,813,300. There were 1145 buildings erected during the year at a cost of \$4,629,500, and 2444 changes and additions were made at a cost of \$1,705,000; total expenditures for buildings, \$6,334,900. The total number of tenements, counting new houses and additions to old ones, for the year, was 976. The number of plumbing inspections made was 8051, and the cost of plumbing work done, \$473,838. New houses plumbed during year, 540; old, 1376; sewer connections made, 1778; cesspools, 138.

INSURANCE.

Life—Providence is the home of one life insurance company, The Puritan. Organized 1907; home office, Turks Head Building. All figures for year ending Dec. 31, 1913. Capital, \$151,000; assets, \$373,797;

liabilities, \$211,815; surplus, \$10,982; policies issued, 216; value, \$430,850; premiums received, \$86,520; losses incurred, \$27,554; business in force, policies, 969; amount of, \$2,308,835.

Fire and Marine—Providence is the home of five fire and marine stock companies and 21 mutual companies; capital of stock companies, \$1,889,914; total risks written and renewed by all Providence companies in 1913, \$384,104,144.

REMOVALS.

Under the act of 1913 regulating the removal of household goods in this State, all removals must be registered with the City or Town Clerk. For the calendar year 1914 the total number of removals registered in Providence was 8800, an average of 170 for each week. All removals for the State are published in the Register and Guide each week.

LIGHTING SYSTEM.

Providence has a very efficient system of lighting, which combines 1500 Magnetite arc lamps and 7700 incandescent, furnished by the Narragansett Electric Lighting Co., at the annual rate of \$85 for underground and \$75 for overhead Magnetite; \$22 for underground and \$17 for overhead incandescents.

TELEPHONE SYSTEM.

Four hundred and eleven telephone operators make 159,883 connections daily for 29,539 subscriber stations in Providence exchanges.

EDUCATIONAL.

Providence has 111 public day schools, graded as follows: Four high, 17 grammar, 73 primary, 5 schools for individual work and 10 for backward children; 2 fresh air schools; also 12 evening schools (2 high and 1 home school), employing in all 930 day and 168 evening school teachers. Appropriation for this department for 1915, \$1,144,250. Total number of day school pupils, 37,646; total number of evening school pupils, 6306.

Providence also has Brown University, with 828 students; the Women's College at Brown University, with 205 students; The State Normal School, with 415 students; the Rhode Island School of Design, with 863 students, and several other important educational institutions.

LIBRARIES.

Providence has 17 public libraries, including the Central Providence Public Library and its three branches. The largest one is the Providence Public Library on Washington St., which has about 171,371 volumes.

RELIGIOUS.

Providence has 152 churches and missions, divided as follows: Baptist, 26; Congregational, 12; Episcopal, 15; Free Baptist, 4; Hebrew synagogues, 8; Lutheran, 3; Methodist Episcopal, 12; Primitive Methodist, 1; Presbyterian, 4; Roman Catholic, 24; Scientist, 2; Unitarian, 2; Universalist, 2; others of various denominations, 37.

PARKS AND PLAYGROUNDS.

Providence has 44 parks, squares and playgrounds, including bath house sites, containing an aggregate of 29,236,860 square feet, valued as follows: Land, \$2,557,880; improvements, \$170,000; total, \$2,727,880.

STREETS.

The length of received streets is 253.21 miles, constructed as follows: Plain macadam, 169.49 miles; bituminous macadam, 3.93 miles; granite blocks, 38.6 miles; asphalt, 7.91 miles; cobblestones, 4.11 miles; bitulithic, 7.42 miles; wood blocks, 1.88 miles; brick, .41 miles.

FIRE DEPARTMENT.

Providence has one of the most efficient fire departments in the country, composed of 32 companies, numbering 332 officers and men, and maintained at a cost of \$509,948.33 during the last fiscal year.

POLICE DEPARTMENT.

Providence has a highly efficient police department. The force consists of 59 officers and 385 patrolmen. The entire force numbers 444 men. This department is governed by three commissioners, and the cost of maintaining the department for the year 1914 was \$544,060.

WATER DEPARTMENT.

Providence has good filtered water, furnished to consumers at 20 cents per thousand gallons. Average daily consumption, 17,717,953 gallons. Total number of meters in use, 28,163; number of services, 30,846; minimum charge for meter, \$8. Consumption per capita, 65

gallons; 91 per cent. of services are by meters; receipts for year, \$815,551.91. There are 406.49 miles of water pipes laid in the streets and 11.96 miles of high pressure fire service pipes.

HOTELS AND THEATRES.

Providence has 30 hotels and 20 theatres.

BIRTH AND DEATH RATES.

The birth rate is 24.81 per 1,000; and the death rate, 15.14 per 1,000.

SANITATION.

The sewerage system of the city is 258.29 miles in extent. There are 5608 catch basins, 2123 extra inlets and 10,639 manholes.

CITY HALL.

BUSINESS HOURS.

The building is opened at 9 a. m. and closed at 5 p. m., on all week days except Saturdays, when it is closed at 12 m.

Members of the city government and all persons having special business may enter at other times on application at the Fulton St. door.

Persons attending upon sessions of committees, public hearings, etc., held after the hour of closing the building, will be admitted at the Fulton St. door.

GENERAL INFORMATION.

The Municipal Court has jurisdiction in all probate matters. Sits every Tuesday and Friday at 9 a. m., except in July and August, when it is in session second and fourth Tuesdays and Fridays.

Free vaccination of children at Fourth Ward room, 151 Fountain street, every Friday, from 2 to 3 p. m.

Permits to build or make alterations are granted by the Inspector of Buildings; in case of barns, only after reference to Board of Aldermen for permission to locate; to move buildings over accepted streets, after permission of the City Council.

Plans must be filed with all applications.

Permits to locate boilers for building purposes are granted by the Inspector of Buildings; for any other purpose by the Board of Aldermen.

The inspection of fire escapes and elevators is also made by the Inspector of Buildings.

Certificates of compliance with fire escape law are issued by the Inspector of Buildings.

Plumbers' licenses are granted by the Commissioner of Public Works on approval of the Inspector of Plumbing.

For license to sell liquors apply to the Board of Police Commissioners, 161 Fountain street. The same board issues dog and junk licenses, also licenses for restaurants, taverns and lodging houses; for shows, dances, bowling, billiards, pool, shooting galleries, for pawnbrokers and second-hand stores.

Application for water or for opening a street must be made to the Commissioner of Public Works.

Licenses for Auctioneers, Hunters, Intelligence Offices, Vehicles, Itinerant Vendors, Milk, Fireworks, Gunpowder and other explosives, and to keep swine and to remove swill and house offal are issued by the City Clerk.

Petitions to the City Council for street lights, sewers, layout of highways, for remission of taxes and claims for damages, can be obtained of the City Clerk or the Clerk of Committees, City Hall.

Applicants for relief are required to pay for a portion of the aid rendered by work in the Charity Wood Yard, 616 Eddy street.

All property on which the tax remains unpaid will be advertised in May and sold in June.

Estates are sold for the amount due the city, which includes the amount of the tax and all expenses incident to the sale.

The person who accepts the smallest portion of the estate sold will be considered the highest bidder.

Any person whose real estate has been sold at tax sale may redeem the same any time within one year by repaying the purchaser the amount paid therefor with 20 per cent. in addition.

CITY OF PROVIDENCE.

Forty-First Annual Report of the Board of Commissioners of Sinking Funds.

(Presented January 4, 1915.)

TO THE HONORABLE THE CITY COUNCIL OF THE CITY OF PROVIDENCE:

The Board of Commissioners of Sinking Funds make this their forty-first annual report of the condition of the several sinking funds under their control, on the thirty-first day of December, 1914, and of the several funds held in trust by said Board.

The bonds and notes comprised in the funded debt, for the redemption of which sinking funds are held by the commissioners, the purposes for which they were issued, the amounts of the sinking funds, and the increase of each are shown by the following table:

Bonds Issued for	Due.	Rate	Debt. Dec. 31, 1914.	Sinking Fund.		
				March 31, 1915.	Dec. 31, 1914.	Increase March 31, 1915.
Public Improvements	May 1, 1929	3	\$84,000.00	\$36,093.51	\$36,073.51	\$20.00
Public Improvements	May 1, 1937	3½	640,000.00	199,526.50	199,523.74	2.76
